To Whom It May Concern,

It is my distinct pleasure to recommend Eve Hoehl for your hockey program. As the Girls Director and U19 Head Coach for the Chicago Mission, I have had the opportunity to observe Eve's development as both a player and a person during spring sessions with our organization as well as watching her compete against us this past season.

Eve is an exceptional young woman who consistently demonstrates the integrity and intense desire required to compete at the highest level. Her hockey sense is strong, and she remains highly attentive to coaching, showing a deep yearning for information and answers to improve her game. Her upside is strong; she is willing to put forth the effort it takes to compete for spots at the next level.

One of Eve's greatest assets is her willingness to learn. She is a player who can adapt to change quickly. She can take situations from the whiteboard and translate them to game-like scenarios faster than most, giving her the ability to learn on the fly and implement quickly.

Eve has a strong desire to play college hockey at the highest level possible. She approaches the game with a continuous learning mindset, which I believe is a significant asset for any collegiate program. I am confident that she will be a pleasure to coach and a valuable addition to any team.

Please feel free to contact me if you require any further information.

Sincerely,

Erin Rourke
Girls Director and U19 Head Coach
Chicago Mission Hockey Club
