

Square Foot Gardening

A Free Seminar

Saturday March 13, 10:00 AM

What you will learn:

- The basics of square foot gardening
- How to set up your garden
- How easy it is to garden successfully with little effort
- How to grow a garden with no digging
- Last, but not least, how to be the envy of the neighborhood!

Square Foot Gardening

by Rod and Brenda Ross, Certified Square Foot Gardeners

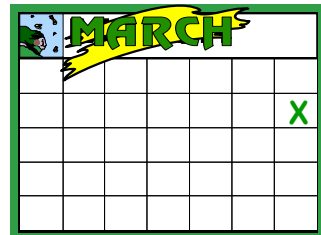

Rod Ross, Mel Bartholomew, and Brenda Ross

Both Rod and Brenda are certified Square Foot Garden trainers who have been taught by Mel Bartholomew. Rod started his own square foot garden last summer and it was a great success. They will teach the basics of creating your own square foot garden, how to set it up, and how with little effort on your part, you can have a garden that will produce healthy fruits & vegetables. This method is fast and easy as you have no weeds to deal with and no worries about digging in rocky soil. Both are retired teachers, parents and grandparents. They are passionate about the joy of square foot gardening and eager to share the enjoyment this easy-to-do technique brings.

When, Where, & What:

- When: Saturday, March 13th, 10:00 am
- Where: Plant Fair Nursery
3497 E. Arizona Hwy 260
Star Valley, Arizona
