

GREEN COUNTRY POINTS

Puller gets a minimum of 15 show up points for each class they sign in.

1st place	25
2nd place	24
3rd place	23
4th place	22
5th place	21
6th place	20
7th place	19
8th place	18
9th place	17
10th place	16

Anything after that will get the 15 points for showing up.

If you get a DQ you still receive your 15 show up points

If the puller is present at the pull it doesn't matter what tractor they pull.

If the puller isn't in attendance someone else can pull their tractor and they will receive points but it has to be their tractor.

If a driver is pulling more than one tractor in a class he must verify at sign in which tractor is puller #1 and/or Puller #2.

At the end of the season the puller lowest 2 pulls per class will be dropped. Like if you miss a pull or have a DQ.

A class must have at least 3 tractors for that class to receive points that day.

A class must make at least 6 times for end of year points awards to be given.

Overall points are determined by a single class not all your classes combined.

We will have overall points in all 3 divisions and a overall master puller.
