Summary of Qualifications

Currently working as a Cyber Operations Specialist (17C) in the U.S. Army. I graduated from the University of Louisville with a BBA in Computer Information Systems and Cyber Security. I earned my CompTIA Security+ certification in August of 2025. My current work role involves data analytics, exploitation analysis, and personnel management.

Relevant Employment

US Army | Aug 2021 - Present.

Cyber Operations Sergeant (17C)

Tasks:

- Vulnerability hunting on target networks.
- OSINT research into exploitable services and CVEs.
- Use of proprietary tools for vulnerability analysis and exploitation development.
- Personnel management, training, and allocation.
- Briefing senior leaders on team progress, findings, and recommendations.

Education

University of Louisville | Aug 2017 - May 2021

B.S. Major: **Computer Information Systems: Track in Cyber Security**

Relevant Courses:

- **Computer Forensics:** Basic computer forensics concepts involving evidence collection, preservation, examination, analysis, and presentation in court as well as technology tools to analyze files, implications on privacy, ethics, policies, risk management and legal aspects. Utilizing tools such as FTK Imager, LECmd, Registry Explorer, WinHex, and Autopsy.
- **Analytics Programming:** Programming techniques in Python that support business analytics with hands-on programming including accessing data, creating informative data graphics, writing functions, debugging, and organizing code.
- **Systems Analysis and Design:** Introduces the fundamentals of object-oriented analysis and design, including experience with a CASE tool. Topics include requirements determination, feasibility analysis, modeling with UML and data dictionary construction, data modeling and normalization, user interface requirements specification, and information security procedures

Certifications

CompTIA Security+ | Aug 2025 - Aug 2028

TryHackMe Cyber Security 101 | Feb 2026 - Feb 2029

TryHackMe Pre Security Certificate | Oct 2025 - Oct 2027
