

Fully Customizable

One of the most exciting aspects of building a Barndominium with **My Metal** is the freedom to design a home that perfectly suits your lifestyle. Forget the limitations of cookie-cutter homes; our Barndominiums offer a blank canvas where you can bring your dream home to life. Whether you're envisioning an open-concept living area, a spacious workshop, or a blend of both, we provide the flexibility to design every detail to your specifications. From the layout to the finishes, your Barndominium can be tailored to suit your lifestyle and preferences, all while remaining cost-effective and efficient.

Interior Design: Your Vision, Your Space

Imagine a home where every room is crafted to your specifications—a place where your creative ideas can come to life without the constraints of traditional building methods. Barndominiums don't require interior load-bearing walls, allowing for expansive, open spaces that can be designed exactly as you envision. Want a grand great room with vaulted ceilings, plush carpeting, and high-end finishes? Or perhaps you prefer a cozy, farmhouse-inspired space with reclaimed wood accents and a warm, inviting atmosphere? Whatever your style, the interior of your Barndominium is a blank canvas waiting to be transformed into your dream home.

Exterior Design: Classic or Contemporary—It's Up to You

The exterior of your Barndominium is just as customizable as the interior. While the iconic barn-style look is a popular choice, you have the flexibility to design an exterior that reflects your personal taste. Whether you opt for traditional barn elements, such as rustic wood finishes and metal siding, or a more contemporary facade with sleek lines and modern materials, your Barndominium can be as unique as you are. With **My Metal**, you have the power to create a home that stands out and truly feels like yours.

BARNDOMINIUMS

Your Dream Home, Reimagined. Where Rustic Charm Meets Modern Living.

Barndominiums

A Barndominium, often called a "Barndo," is a versatile structure that merges the warmth of a home with the practicality of a workshop or garage. Imagine a space where modern living meets rugged functionality—a home that is as adaptable as it is stylish. Barndominiums have evolved from their humble farm origins into a nationwide trend, offering a unique blend of comfort and utility under one roof.

Whether you're looking to embrace the open countryside or create a serene retreat just outside the city, a Barndominium offers the flexibility to live, work, and play in a space that's designed around your lifestyle. With customizable layouts, high ceilings, and energy-efficient metal construction, these homes are as durable as they are beautiful.

In today's world, where individuality and sustainability are key, a Barndominium stands out as a modern, affordable alternative to traditional housing. It's more than just a home—it's a statement of personal style and practical living.

Benefits

Choosing a Barndominium from **My Metal** is more than just selecting a home—it's making an investment in a lifestyle that offers unparalleled advantages. Our Barndominiums combine the best of modern design, energy efficiency, and durability, giving you a space that meets your unique needs while standing the test of time.

- Economical
- Attractive
- Energy Efficient
- Durable
- Low Maintenance
- Pest, Rot, and Fire Resistant
- Green Product

Pre-Engineered Buildings

Choosing a pre-engineered building for your Barndominium offers a seamless blend of efficiency and reliability. Pre-engineered buildings are designed for strength and durability, ensuring your Barndominium stands the test of time while maintaining the flexibility to customize the interior to your exact specifications. It's a smart, time-saving solution that doesn't compromise on quality or design.

- Engineered to local and state building codes
- Simple bolt-together design
- 40-year Limited Warranty Standard for Walls and Trim
- PB-R paneling standard, versus traditional R-Paneling (Better Coverage, Strength and Weathertightness)

Cold-Formed Buildings

My Metal is proud to offer Cold-Formed Buildings as an innovative option for your barndominium. Cold-Formed Buildings are revolutionizing the industry by providing an economical alternative to traditional pre-engineered metal buildings without compromising on quality. Each structure is engineered with precision, and includes stamped engineering for both the building and foundation, ensuring that your barndominium is built to the highest standards. With Cold-Formed Buildings, you can achieve the perfect balance of cost-effectiveness and durability for your dream home.

Cold-formed buildings save time and money!

- Shorter lead times
- Quicker installation
- Reduced onsite fabrication
- 20-25% less concrete
- No preset anchor bolts
- Lower equipment fees
