THE EYEGLASS REPAIR GUYS

SHIPPING INSTRUCTIONS

Once you have received the label for your shipment, it is important you follow these instructions.

1. Print your shipping label.
2. Place your eyeglasses in a hard case if you have one. If you don't, use bubble wrap to wrap the glasses for protection.
3. Go to your local US Postal Office and ask for a SMALL FLAT RATE BOX.

4. Place your glasses inside the box (after assembly) and affix the label to the outside of the box (the post office should have tape on hand for this). Domestic shipping is free with our label
5. Last, and this is **IMPORTANT**, drop the package in the mail or let one of the postal workers have it. Once we receive your package, you will get a notification from our shipping partner and we'll begin the repair.
6. Once the repair is complete, you can pay your invoice and we will drop the package back into the mail and it will be on its way back to you.
