

A NEW LIFE FOR BILLIONS OF GALLONS OF LIQUID WASTE

Enfinite members do seemingly impossible work. We take the industrial liquid waste that burdens partner companies and transform it into usable products. Through innovative purification processes we recycle, reuse, and dispose of these fluids—creating a circular economy that's environmentally friendly.

LIQUIDS WE COLLECT

We've constantly evolved since our founding in 1984. It all started with oil, but since then we've gone on to include a myriad of industrial liquids to our services including:

- Used oil
- Industrial Wastewater
- Antifreeze/Glycol
- Solvent/Parts Washers
- Transmix
- Paint
- Ink
- Fuel/Hydrocarbons
- Oil Filters
- Absorbents
- Contaminated/Expired Gas/Diesel
- Hydro Excavation Fluids

INDUSTRIES WE SERVE

Enfinite members proudly serve a plethora of industries and are always looking to expand their scope. Industries we serve include:

- Automotive
- Refineries
- Manufacturers
- Terminals/Pipelines
- Landfills
- Airports
- Aerospace
- Steel Mills
- Chemical Industry
- Utility (Natural Gas and Electric)
- Transportation (Fleet and Marine)
