March 2018

Thanks to your generous donation last year at this time, we were able to respond positively to a destructive act to the Chesed Shel Emeth cemetery in University City.

You contributed to an important community wide effort that resulted in successfully garnering the resources to:

- Restore, replace and repair all of the desecrated stones, in a manner that appropriately honors the memory of the deceased
- Upgrade the security system, install lighting and replace fencing around the grounds, in order to mitigate the threat of future damage
- Mobilize the Jewish and general communities to speak out against hate
- Enhancing the community's sense of security and unity

Your support and that of over 3,000 other caring people was an act of kindness; and properly restored this sacred space.

As the non-profit charitable organization Chesed Shel Emeth Society marks 130 years of service to the St. Louis Jewish community, we ask you to consider renewing your support in 2018 so that we may continue to fulfill our shared obligation to care for the deceased.

A tax deductible donation will ensure that the cemeteries can be maintained in excellent condition for years to come; that we are able to assist those without financial resources receive a dignified burial; and to guarantee that the recent upgrades and improvements remain functional and effective.

To donate you can click on the link below to take you directly visit our website. There you can request a Tzeddakah box or yahrzeit candle as well as send a tribute with your donation.
