

I am a Dad, Husband, Son, and a Public School Teacher. These are the titles that I often define myself as.

I had the pleasure of growing up in Brown County with my parents having a home in West De Pere. In High School, I often went to De Pere City Board meetings, just because I found the conversations interesting. After High School, I was accepted to UW-Stout where I attended Marketing and Business Education with a minor in Economics and Business Administration. While there, I was a part of the Housing Committee where we discussed sanctions on student's behavior in the dorms. During this time, I also worked at an emergency homeless shelter, where I was able to find compassion for people in difficult situations. During this time, I also was lucky enough to find the woman of my dreams and in the Summer of 2015 at Voyageur Park my wife and I were married.

We now have two amazing children (5 and 2) and three crazy dogs. My family has benefited from the amazing things that Brown County has to offer. From our Childcare Centers, Public Schools, Parks, and community programs we have been lucky to call Brown County our home. I have decided to run not just because of my passion for helping our community, but also for the future I want to be able to create for my children and all children of Brown County.

I have been working as a Bay Port business teacher for the last 12 years. Helping students find ways to be successful after high school is one of my great passions in life. I love engaging the community and finding practical and creative ways to help students achieve their dreams. I have received a bachelor's degree from UW-Stout in Marketing and Business Education and a master's degree from Lakeland University in School Counseling. I work with students who have both career worries, and social and emotional problems. My classroom is a safe place for students. It is a place for them to be able to find their passions and recharge from difficult situations.

I love our community and it has given so many opportunities for learning, living and fun to both me and my family. I want to do everything I can to make it as great as it can be. My political run is a thank-you for how great we already are and how great we can be.
