

Cará Origin Motorsports is a self-operated, competitive team based in Houston, TX. We compete nationally in the FIA Formula 4 United States Championship and are focused on developing the next generation of open-wheel drivers.

In our debut year, we secured:

- **Top-4 team classification in the 2023 F4 U.S. Championship**
- **6th place overall finish out of 42 drivers**
- **The highest-ranked self-operated team in F4 U.S. history**

We don't take on drivers in mass numbers.
We select drivers with talent, drive, and the commitment to make this step.
When we commit, we build with you — race by race, session by session.

We offer:

- ✓ **A proven Formula 4 platform with competitive results**
- ✓ **Data and coaching support tailored to each driver**
- ✓ **Personalized program scaling for regional and national competition**
- ✓ **A clear path from Karts toward Formula 4, Regional and Indy**

If you're ready to move from karting into formula racing — with a team that focuses on you — we're ready to talk.
