

Dear guests,

it is nearly time to enjoy your vacation in "Las vistas de Estibali".

Please be so kind and inform immediately our housekeeper Pilar about your exact arrival so that she can hand out the keys and show the apartment ([Whatsapp: 0034 625 777 179](https://www.whatsapp.com/business/profile/3460034625777179)). Please note that the arrival can normally only be after 3 p.m. If there is anything missing or problems may arise, Pilar will be your direct contact person.

How to find us:

If you are arriving by car from Jerez Airport, you should plan a journey time of around 50 minutes. Seville Airport is around 90 minutes away, as well as Gibraltar Airport. Malaga airport is around 2.5 hours away. Coming from the highway (preferably with navigation), take the A-2232 to Conil. There are many one-way streets and very small alleys. So, we recommend that you turn into Avenida Canada Honda in one of the many traffic circles. This street will later remain on Avenida de la Musica. By passing the supermarket "Mercadona" on your right side, turn left at the following traffic circle into Calle Camino Chiclana and follow the road to the next traffic circle. Turn there into Calle Chiclana and drive along until you turn right into Calle Extramuros. Follow this street only about 150m along.

! Important notice: You can stop in front of the house and unpack your private things from the car. However, there is an absolute no-parking zone.

Wifi:

Network: Orange-9863, Password: 9E547943. If you have a Netflix account, you can watch it on our TV. At the moment we only can offer Spanish TV, but we are trying to find an international solution as soon as possible.

As always, kind regards from Esther and Sascha

- Guest information -

It's your first time in Conil de la Frontera? If so, we would be happy to provide some information and hints.

Las vistas de Estibali and Conil

"Las vistas de Estibali" is located in the old fishing village of Conil and is therefore within walking distance of the most important facilities. Conil is suitable for beautiful evening walks in the village itself or at the beach. Likewise, surfers get their money's worth. The surrounding area is perfect for cycling tours, as well as golf courses are not far away. We also recommend to visit [Zahara de los Atunes](#), [Tarifa](#) and [Cadiz](#). You should visit the white villages in general. Esther was born in [Arcos de la Frontera](#) with a beautiful historical center and a perfect view. It is definitely a very nice trip.

Attractions in and around Conil

Conil de la Frontera is a southern Spanish city in Andalusia. It belongs to the province of Cadiz in the Comarca La Janda and is located between Cadiz and Gibraltar at the Atlantic Ocean on the Costa de la Luz, the "Coast of Light". Conil has 22,369 inhabitants (January 1st, 2017), however in summer up to 80,000 tourists enjoy this "white village", which belongs to the Ruta de los Pueblos Blancos, the route of the white villages. In the past, the inhabitants of Conil lived mainly from fishing and agriculture. The traditional tuna fishing, the Almadraba, had a great importance. Today the atmosphere of this little town is international and mainly characterized by tourism, international languages and surf schools.

Plaza de Espana

...life pulsates here....during the day, but especially in the evening. The place has a Spanish pleasant flair...far away from tourist extremes! The whole place with its shops, restaurant and small bars is really adorable.

Torre de Guzman

Certainly a “must have seen” in Conil and free of charge. However, you should be able to climb stairs well and should like narrow stairs. The climb is worth it. On all sides you have a wonderful view - to the church square, to the bay etc.

Cervezas Esparte Conil

In addition to the delicious beers like Cruzcampo, Mahou or Alhambra, there is also a great brewery with really good beers on tap. A must for beer lovers. This small brewery / bar has about 8 different beers each from the tap. They are delicious drops - be sure to try and enjoy. Very large selection of national and international beers. Craft beer can be obtained in 28cl or 56cl. The best thing to do is to order some delicious tapas as well. The service and the mentoring are great!

Bodega Sancha Perez

[Individual vineyard tour with information about wine and olive oil production](#)

...highly recommended, there is a lot of improvisation and that is precisely why it is entertaining and interesting! Of course you can buy some tasty wine and oil there as well.

Ramon and his wife Eluisa are really nice. A small, cute wine and olive oil production with ecological cultivation. It is not visible from the main road, but you suddenly stand behind the hilltop in front of the charming estate.

Museo Raices Conilenas

If anyone wants to find out more about squid fishing, you can do so at any time. For little money you have a small overview to suspect that this is a billion dollar business with Japan today. Here you can see the authentic development of squid fishing.

Parish of Saint Catherine of Alexandria

Beautiful church in the historical center of Conil. The visit is really worthwhile. The church is almost always open and can be visited free of charge. Worth a walk around the outside to get a feeling for how this building was built and how mother Nature is trying to bring it back into the sea. Stunning in shape and design.

In addition to countless surf schools, we can particularly recommend these:

Oceano Surf

The best choice! Andy and his surfing family are nice, helpful and supportive in all questions about vacation and the best of all: the surf lessons are very good! If individual surf lessons have to be postponed due to the weather, a suitable alternative date will be offered immediately.

There are countless bars and restaurants in Conil, here is a small selection:

La Gloria Conil (our neighbors run this restaurant)

Nice bar, delicious unusual tapas, changing specials, friendly and fast service, cool atmosphere and a very good service. The menu is only in Spanish, but you will get some help. Everything is freshly prepared and with local ingredients.

La Tertulia

From the outside, the bar looks rather inconspicuous, but when you go downstairs, you will be immediately drawn into the flair of the bar. The green courtyard is fantastic and the staff is very friendly and always in a good mood. The drinks are also very tasty. The bar is located in an old building with an open courtyard. The stars are watching you. Beautiful in every detail, executed bar with many well-kept flowers. Juan Marin and Jorge behind the bar are ideal for this bar. Friendly, thoughtful and open minded for every little bit of fun.

La Casa Inquieta

Great atmosphere and absolutely nice people with live music. You can have the perfect nightcap in a relaxed atmosphere. Cultural events and chilled music bring all generations as well as locals and people together. The likeable bartenders mix wonderful drinks.

Breakfast - just around the corner:

Terraza Portillo. Super nice waiter from the village of Esther. You can also have a great lunch here.

Nearest supermarket - 2 minutes by foot, small, but you get everything you need

Check-Out:

The check should not be later than 10 a.m. on the day of departure. We know it's early but ask Pilar if a later check-out is possible. Be so kind and leave the apartment as you would like to find it next time. If something breaks, which can happen, do not worry: we're all just humans. In this case, please inform Pilar immediately. Then we can talk to Pilar about the open deposit, after the final check-up with you in the apartment. If everything is fine, Pilar will hand over the corresponding deposit at the check-out (in the case you have transferred it beforehand, we will refund the corresponding amount by bank transfer).

We wish a safe journey as well as a relaxed and pleasant stay in "Las vistas de Estibali".
