1. Aims

The school aims to ensure that:

Appropriate action is taken in a timely manner to safeguard and promote children's welfare

All staff are aware of their statutory responsibilities with respect to safeguarding

Staff are properly trained in recognising and reporting safeguarding issues

2. Legislation and statutory guidance

This policy is based on the Department for Education's statutory guidance [Keeping Children Safe in Education \(2025\)](#) and [Working Together to Safeguard Children \(2023\)](#), and the [Governance Handbook](#). We comply with this guidance and the arrangements agreed and published by our 3 local safeguarding partners.

This policy is also based on the following legislation:

Part 3 of the schedule to the [Education \(Independent School Standards\) Regulations 2014](#), which places a duty on academies and independent schools to safeguard and promote the welfare of students at the school

- The standard in paragraph 7 is met if the proprietor ensures that—

(a) arrangements are made to safeguard and promote the welfare of students at the school; and

(b) such arrangements have regard to any guidance issued by the Secretary of State.

- The standard in paragraph 9 is met if the proprietor promotes good behaviour amongst students by ensuring that—

(a) a written behaviour policy is drawn up that, amongst other matters, sets out the sanctions to be adopted in the event of student misbehaviour.

(b) the policy is implemented effectively; and

(c) a record is kept of the sanctions imposed upon students for serious misbehaviour.

- The standard in this paragraph 10 is met if the proprietor ensures that bullying at the school is prevented in so far as reasonably practicable, by the drawing up and implementation of an effective anti-bullying strategy.
- The standard in paragraph 11 is met if the proprietor ensures that relevant health and safety laws are complied with by the drawing up and effective implementation of a written health and safety policy.
- The standard in paragraph 12 is met if the proprietor ensures compliance with the Regulatory Reform (Fire Safety) Order 2005(2).
- The standard in paragraph 13 is met if the proprietor ensures that first aid is administered in a timely and competent manner by the drawing up and effective implementation of a written first aid policy.
- The standard in paragraph 14 is met if the proprietor ensures that students are properly supervised through the appropriate deployment of school staff.

- The standard in this paragraph 15 is met if the proprietor ensures that an admission and attendance register is maintained in accordance with the Education (Pupil Registration) (England) Regulations 2006(3).
- The standard in this paragraph is met if the proprietor ensures that—

(a) the welfare of students at the school is safeguarded and promoted by the drawing up and effective implementation of a written risk assessment policy; and

(b) appropriate action is taken to reduce risks that are identified.

[The Children Act 1989](#) (and [2004 amendment](#)), which provides a framework for the care and protection of children

Section 5B(11) of the Female Genital Mutilation Act 2003, as inserted by section 74 of the [Serious Crime Act 2015](#), which places a statutory duty on teachers to report to the police where they discover that female genital mutilation (FGM) appears to have been carried out on a girl under 18

[Statutory guidance on FGM](#), which sets out responsibilities with regards to safeguarding and supporting girls affected by FGM

[The Rehabilitation of Offenders Act 1974](#), which outlines when people with criminal convictions can work with children

Schedule 4 of the [Safeguarding Vulnerable Groups Act 2006](#), which defines what ‘regulated activity’ is in relation to children

[Statutory guidance on the Prevent duty](#), which explains schools’ duties under the Counter-Terrorism

The Childcare (Disqualification) and Childcare (Early Years Provision Free of Charge) (Extended Entitlement) (Amendment) Regulations 2023 are a set of amendments to existing UK childcare regulations, updating the original Childcare (Disqualification) regulations and regulations concerning early years free childcare provision and extended entitlement. These amendments would have affected what qualifications were needed, the terms and conditions for early years provision, and potentially the eligibility criteria for free childcare, particularly the Extended Entitlement for the Extended Free Entitlement. (referred to in this policy as the “2023 Childcare Disqualification Regulations”) and [Childcare Act 2006](#), which set out who is disqualified from working with children

3. Definitions

Safeguarding and promoting the welfare of children means:

- Providing help and support to meet the needs of children as soon as problems emerge
- Protecting children from maltreatment, whether it is within or outside the home, including online
- Preventing impairment of children’s mental and physical health or development
- Ensuring that children grow up in circumstances consistent with the provision of safe and effective care

- Taking action to enable all children to have the best outcomes

Child protection is part of this definition and refers to activities undertaken to prevent children suffering, or being likely to suffer, significant harm.

Abuse is a form of maltreatment of a child and may involve inflicting harm or failing to act to prevent harm. Appendix 1 explains the different types of abuse.

Neglect is a form of abuse and is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Appendix 1 defines neglect in more detail.

Sharing of nudes and semi-nudes (also known as sexting or youth produced sexual imagery) is where children share nude or semi-nude images, videos or live streams.

Children includes everyone under the age of 18.

The following 3 **safeguarding partners** are identified in Keeping Children Safe in Education (2025) (and defined in the Children Act 2004, as amended by chapter 2 of the Children and Social Work Act 2017). They will make arrangements to work together to safeguard and promote the welfare of local children, including identifying and responding to their needs:

The local authority (LA)

A : Integrated Care Board (ICB) for an area within the LA

The chief officer of police for a police area in the LA area

4. Equality statement

Some children have an increased risk of abuse, and additional barriers can exist for some children with respect to recognising or disclosing it. We are committed to anti-discriminatory practice and recognise children's diverse circumstances. We ensure that all children have the same protection, regardless of any barriers they may face.

We give special consideration to children who:

- Have special educational needs (SEND) or disabilities or health conditions (see section 10)
- Are young carers
- May experience discrimination due to their race, ethnicity, religion, gender identification or sexuality
- Have English as an additional language
- Are known to be living in difficult situations – for example, temporary accommodation or where there are issues such as substance abuse or domestic violence
- Are at risk of FGM, sexual exploitation, forced marriage, or radicalisation
- Are asylum seekers
- Are at risk due to either their own or a family member's mental health needs
- Are looked after or previously looked after (see section 12)
- Are missing from education

- Whose parent/carer has expressed an intention to remove them from school to be home educated

5. Roles and responsibilities

Safeguarding and child protection is **everyone's** responsibility. This policy applies to all staff in the school and is consistent with the procedures of the 3 safeguarding partners. Our policy and procedures also apply to extended school and off-site activities.

All staff

All staff will read and understand part 1 and annex B of the Department for Education's statutory safeguarding guidance, [Keeping Children Safe in Education](#), and review this guidance at least annually. Any amendments must be read by all staff.

All staff will sign a declaration at the beginning of each academic year to say that they have reviewed the guidance.

All staff will be aware of:

Our systems which support safeguarding, including this child protection and safeguarding policy, the staff code of conduct, relational policy, the role and identity of the Designated Safeguarding Lead (DSL) and Deputy Designated Safeguarding Lead (DDSL), the online safety policy and the safeguarding response to children who go missing from education

The early help process (sometimes known as the common assessment framework) and their role in it, including identifying emerging problems, liaising with the DSL, and sharing information with other professionals to support early identification and assessment

The process for making referrals to local authority children's social care and for statutory assessments that may follow a referral, including the role they might be expected to play

What to do if they identify a safeguarding issue or a child tells them they are being abused or neglected, including specific issues such as FGM, and how to maintain an appropriate level of confidentiality while liaising with relevant professionals

The signs of different types of abuse and neglect, as well as specific safeguarding issues, such as peer-on-peer abuse, child sexual exploitation (CSE), child criminal exploitation (CCE), indicators of being at risk from or involved with serious violent crime, FGM and radicalisation

The importance of reassuring victims that they are being taken seriously and that they will be supported and kept safe

Section 15 and appendix 4 of this policy outline in more detail how staff are supported to do this.

The Designated Safeguarding Lead (DSL)

The DSL is a member of the senior leadership team. Our DSL is Heidi Lindle. The DSL takes lead responsibility for child protection and wider safeguarding in the school.

During term time, the DSL will be available during school hours for staff to discuss any safeguarding concerns.

The DSL can also be contacted out of school hours, if necessary, on 07866498865.

When the DSL is absent, the deputy – Catherine Ford will act as cover.

Out of school hours/out of term activities, if the DSL is not available Catherine Ford will act as cover and can be contacted out of hours, if necessary, on 07951239700.

The DSL will be given the time, funding, training, resources and support to:

Provide advice and support to other staff on child welfare and child protection matters

Take part in strategy discussions and inter-agency meetings and/or support other staff to do so

Contribute to the assessment of children

Refer suspected cases, as appropriate, to the relevant body (local authority children's social care, Channel programme, Disclosure and Barring Service, and/or police), and support staff who make such referrals directly

The DSL will liaise with local authority case managers and designated officers for child protection concerns as appropriate.

Availability

During term time the DSL / DDSL should always be available (during school hours) for staff to discuss any safeguarding concerns. Whilst generally speaking the DSL / DDSL would be expected to be available in person, it is a matter for individual schools, working with the DSL / DDSL, to define what "available" means and whether in exceptional circumstances availability via phone or other such media is acceptable. It is a matter for individual schools and the DSL / DDSL to arrange adequate and appropriate cover arrangements for any out of hours/out of term activities.

Manage referrals

The DSL / DDSL expected to refer cases:

- Of suspected abuse, neglect and exploitation to the local authority children's social care as required and support staff who make referrals to local authority children's social care
- To the Channel programme where there is a radicalisation concern as required and support staff who make referrals to the Channel programme
- Where a person is dismissed or left due to risk/harm to a child to the Disclosure and Barring Service as required, and
- Where a crime may have been committed to the Police as required. NPCC - When to call the police should help understand when to consider calling the police and what to expect when working with the police

Working with others the DSL is expected to:

- Act as a source of support, advice and expertise for all staff
- Act as a point of contact with the safeguarding partners
- Liaise with the headteacher to inform them of issues- especially ongoing enquiries under section 47 of the Children Act 1989 and police investigations. This should

include being aware of the requirement for children to have an Appropriate Adult. Further information can be found in the Statutory

guidance - PACE Code C 2019.

- As required, liaise with the “case manager” (as per Part four) and the local authority designated officer(s) (LADO) for child protection concerns in cases which concern a staff member
- Liaise with staff (especially teachers, pastoral support staff, school nurses, IT technicians, senior mental health leads and special educational needs coordinators, SENCOs) on matters of safety and safeguarding and welfare (including online and digital safety) and when deciding whether to make a referral by liaising with relevant agencies so that children’s needs are considered holistically
- Liaise with the senior mental health lead and, where available, the mental health support team, where safeguarding concerns are linked to mental health
- Promote supportive engagement with parents and/or carers in safeguarding and promoting the welfare of children, including where families may be facing challenging circumstances
- Work with the headteacher and relevant strategic leads, taking lead responsibility for promoting educational outcomes by knowing the welfare, safeguarding and child protection issues that children in need are experiencing, or have experienced, and identifying the impact that these issues might be having on children’s attendance, engagement and achievement at school.

This includes:

- Ensuring that the school knows who its cohort of children who have or have had a social worker are, understanding their academic progress and attainment, and maintaining a culture of high aspirations for this cohort.
 - Supporting teaching staff to provide additional academic support or reasonable adjustments to help children who have or have had a social worker reach their potential, recognising that even when statutory social care intervention has ended, there is still a lasting impact on children’s educational outcomes
- Information sharing and managing the child protection file the DSL is responsible for ensuring that child protection files are kept up to date. Information should be kept confidential and stored securely. It is good practice to keep concerns and referrals in a separate child protection file for each child.

Records should include:

- A clear and comprehensive summary of the concern
- Details of how the concern was followed up and resolved
- A note of any action taken, decisions reached and the outcome
- The DSL / DDSL should ensure the file is only accessed by those who need to see it and where the file or content within is shared, this happens in line with information sharing advice set out in Parts one and two of this guidance.
- Where children leave the school (including in year transfers) the DSL should ensure their child protection file is transferred to the new school or college as soon as

possible, and within 5 days for an in-year transfer or within the first 5 days of the start of a new term. This should be transferred separately from the main student file, ensuring secure transit, and confirmation of receipt should be obtained. Receiving schools and colleges should ensure key staff such as DSL's and SENCOs or the named person with oversight for SEND in colleges, are aware as required.

- Lack of information about their circumstances can impact on the child's safety, welfare and educational outcomes. In addition to the child protection file, the DSL should also consider if it would be appropriate to share any additional information with the new school or college in advance of a child leaving to help them put in place the right support to safeguard this child and to help the child thrive in the school or college. For example, information that would allow the new school or college to continue supporting children who have had a social worker and been victims of abuse and have that support in place for when the child arrives.

Raising awareness

The DSL should:

- Ensure each member of staff has access to, and understands, the school's child protection policy and procedures, especially new and part-time staff
- Ensure the school's child protection policy is reviewed annually (as a minimum) and the procedures and implementation are updated and reviewed regularly, and work with governing bodies or proprietors regarding this
- Ensure the child protection policy is available publicly and parents know that referrals about suspected abuse or neglect may be made and the role of the school in this
- Link with the safeguarding partner arrangements to make sure staff are aware of any training opportunities and the latest local policies on local safeguarding arrangements
- Help promote educational outcomes by sharing information about welfare, safeguarding and child protection issues that children who have or have had a social worker are experiencing with teachers and school and college leadership staff

Training, knowledge and skills

The DSL / DDSL should undergo training to provide them with the knowledge and skills required to carry out the role. This training should be updated at least every two years. The DSL / DDSL should also undertake Prevent awareness training. Training should provide DSL / DDSL with a good understanding of their own role, how to identify, understand and respond to specific needs that can increase the vulnerability of children, as well as specific harms that can put children at risk, and the processes, procedures and responsibilities of other agencies, particularly local authority children's social care, so they:

- Understand the assessment process for providing early help and statutory intervention, including local criteria for action and local authority children's social care referral arrangements
- Have a working knowledge of how local authorities conduct a child protection case conference and a child protection review conference and be able to attend and contribute to these effectively when required

- Understand the importance of the role the DSL / DDSL has in providing information and support to local authority children social care in order to safeguard and promote the welfare of children
- Understand the lasting impact that adversity and trauma can have, including on children's behaviour, mental health and wellbeing, and what is needed in responding to this in promoting educational outcomes
- Are alert to the specific needs of children in need, those with special educational needs and disabilities (SEND), those with relevant health conditions and young carers
- Understand the importance of information sharing, within the school, and with the safeguarding partners, other agencies, organisations and practitioners
- Understand and support the school with regards to the requirements of the Prevent duty and are able to provide advice and support to staff on protecting children from the risk of radicalisation Full details in Chapter one of Working Together to Safeguard Children. Section 17(10) Children Act 1989: those unlikely to achieve a reasonable standard of health and development without local authority services, those whose health and development is likely to be significantly impaired without the provision of such services, or disabled children.
- Are able to understand the unique risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online at school or college
- Can recognise the additional risks that children with SEND face online, for example, from bullying, grooming and radicalisation and are confident they have the capability to support children with SEND to stay safe online
- Obtain access to resources and attend any relevant or refresher training courses
- Encourage a culture of listening to children and taking account of their wishes and feelings, among all staff, and in any measures the school may put in place to protect them. In addition to the formal training set out above, their knowledge and skills should be refreshed (this might be via e-bulletins, meeting other DSLs, or simply taking time to read and digest safeguarding developments) at regular intervals, as required, and at least annually, to allow them to understand and keep up with any developments relevant to their role. Providing support to staff Training should support the DSL in developing expertise, so they can support and advise staff and help them feel confident on welfare, safeguarding and child protection matters.

This includes specifically to:

- Ensure that staff are supported during the referrals processes
- Support staff to consider how safeguarding, welfare and educational outcomes are linked, including to inform the provision of academic and pastoral support.

Understanding the views of children

It is important that all children feel heard and understood. Therefore, DSL / DDSLs should be supported in developing knowledge and skills to:

- Encourage a culture of listening to children and taking account of their wishes and feelings, among all staff, and in any measures the school may put in place to protect them
- Understand the difficulties that children may have in approaching staff about their circumstances and consider how to build trusted relationships which facilitate communication.

Holding and sharing information

The critical importance of recording, holding, using and sharing information effectively is out in Parts one, two and five of this document, and therefore the DSL / DDSL should be equipped to:

- Understand the importance of information sharing, both within the school, and with other schools and colleges on transfer including in-year and between primary and secondary education, and with the safeguarding partners, other agencies, organisations and practitioners
- Understand relevant data protection legislation and regulations, especially the Data Protection Act 2018 and the UK General Data Protection Regulation (UK GDPR)
- Be able to keep detailed, accurate, secure written records of all concerns, discussions and decisions made including the rationale for those decisions. This should include instances where referrals were or were not made to another agency such as LA children's social care or the Prevent program etc. (P170-176 KCSIE 2025)

The Headteacher

The Headteacher is responsible for the implementation of this policy, including:

Ensuring that staff:

- Are informed of our systems which support safeguarding, including this policy, as part of their induction
- Understand and follow the procedures included in this policy, particularly those concerning referrals of cases of suspected abuse, neglect and exploitation communicate this policy to parents/carers when their child joins the school and via the school website ensuring that all staff undertake appropriate safeguarding and child protection training, and updating the content of the training regularly acting as the 'case manager' in the event of an allegation of abuse made against another member of staff or volunteer, where appropriate (see appendix 3) ensuring the relevant staffing ratios are met, where applicable

6. Confidentiality

We ensure confidentiality in line with our GDPR Policy, however, all Safeguarding concerns are shared with the LA SEN Team, parents, and Social Workers, Virtual Schools etc as appropriate.

Timely information sharing is essential to effective safeguarding

Fears about sharing information must not be allowed to stand in the way of the need to promote the welfare, and protect the safety, of children

The Data Protection Act (DPA) 2018 and UK GDPR do not prevent, or limit, the sharing of information for the purposes of keeping children safe

If staff need to share 'special category personal data', the DPA 2018 contains 'safeguarding of children and individuals at risk' as a processing condition that allows practitioners to share information without consent if it is not possible to gain consent, it cannot be reasonably expected that a practitioner gains consent, or if to gain consent would place a child at risk

Staff should never promise a child that they will not tell anyone about a report of abuse, as this may not be in the child's best interests

The government's [information sharing advice for safeguarding practitioners](#) includes 7 'golden rules' for sharing information, and will support staff who have to make decisions about sharing information

1. Remember that the General Data Protection Regulation (GDPR), Data Protection Act 2018 and human rights law are not barriers to justified information sharing but provide a framework to ensure that personal information about living individuals is shared appropriately.
2. Be open and honest with the individual (and/or their family where appropriate) from the outset about why, what, how and with whom information will, or could be shared, and seek their agreement, unless it is unsafe or inappropriate to do so.
3. Seek advice from other practitioners, or your information governance lead, if you are in any doubt about sharing the information concerned, without disclosing the identity of the individual where possible.
4. Where possible, share information with consent, and where possible, respect the wishes of those who do not consent to having their information shared. Under the GDPR and Data Protection Act 2018 you may share information without consent if, in your judgement, there is a lawful basis to do so, such as where safety may be at risk. You will need to base your judgement on the facts of the case. When you are sharing or requesting personal information from someone, be clear of the basis upon which you are doing so. Where you do not have consent, be mindful that an individual might not expect information to be shared.
5. Consider safety and well-being: base your information sharing decisions on considerations of the safety and well-being of the individual and others who may be affected by their actions.
6. Necessary, proportionate, relevant, adequate, accurate, timely and secure: ensure that the information you share is necessary for the purpose for which you are sharing it, is shared only with those individuals who need to have it, is accurate and up-to-date, is shared in a timely fashion, and is shared securely (see principles).
7. Keep a record of your decision and the reasons for it – whether it is to share information or not. If you decide to share, then record what you have shared, with whom and for what purpose.

If staff are in any doubt about sharing information, they should speak to the DSL / DDSL

Confidentiality is also addressed in this policy with respect to record-keeping in section 14, and allegations of abuse against staff in appendix 3

7. Recognising abuse and taking action

Staff must follow the procedures set out below in the event of a safeguarding issue.

Please note – in this and subsequent sections, you should take any references to the DSL to mean “the DSL (or deputy DSL)”.

If a child is suffering or likely to suffer harm, or in immediate danger

Make a referral to children’s social care and/or the police **immediately** if you believe a child is suffering or likely to suffer from harm or is in immediate danger. **Anyone can make a referral.**

Tell the DSL as soon as possible if you make a referral directly to:

<https://dscp.org.uk/report-concern/>

If a child makes a disclosure to you

If a child discloses a safeguarding issue to you, you should:

- Listen to and believe them. Allow them time to talk freely and do not ask leading questions
- Stay calm and do not show that you are shocked or upset
- Tell the child they have done the right thing in telling you. Do not tell them they should have told you sooner
- Explain what will happen next and that you will have to pass this information on. Do not promise to keep it a secret
- Write up your conversation as soon as possible in the child’s own words. Stick to the facts, and do not put your own judgement on it
- Sign and date the write-up and pass it on to the DSL. Alternatively, if appropriate, make a referral to children’s social care and/or the police directly, and tell the DSL as soon as possible that you have done so. Aside from these people, do not disclose the information to anyone else unless told to do so by a relevant authority involved in the safeguarding process

If you discover that FGM has taken place or a student is at risk of FGM

Keeping Children Safe in Education explains that FGM comprises “all procedures involving partial or total removal of the external female genitalia, or other injury to the female genital organs”.

FGM is illegal in the UK and a form of child abuse with long-lasting, harmful consequences. It is also known as ‘female genital cutting’, ‘circumcision’ or ‘initiation’.

Possible indicators that a student has already been subjected to FGM, and factors that suggest a student may be at risk, are set out in appendix 4 of this policy.

Any teacher who either:

- Is informed by a girl under 18 that an act of FGM has been carried out on her; or

- Observes physical signs which appear to show that an act of FGM has been carried out on a girl under 18 and they have no reason to believe that the act was necessary for the girl's physical or mental health or for purposes connected with labour or birth

Must immediately report this to the police, personally. This is a mandatory statutory duty, and teachers will face disciplinary sanctions for failing to meet it.

Unless they have been specifically told not to disclose, they should also discuss the case with the DSL and involve children's social care as appropriate.

Any other member of staff who discovers that an act of FGM appears to have been carried out on a **student under 18** must speak to the DSL and follow our local safeguarding procedures.

The duty for teachers mentioned above does not apply in cases where a student is *at risk* of FGM or FGM is suspected but is not known to have been carried out. Staff should not examine students.

Any member of staff who suspects a student is *at risk* of FGM or suspects that FGM has been carried out must speak to the DSL and follow our local safeguarding procedures. The Police must be informed immediately on 101, and a telephone referral to DSCB must be made immediately.

If you have concerns about a child (as opposed to believing a child is suffering or likely to suffer from harm, or is in immediate danger)

Figure 1 below, illustrates the procedure to follow if you have any concerns about a child's welfare.

Where possible, speak to the DSL first to agree a course of action.

If in exceptional circumstances the DSL is not available, this should not delay appropriate action being taken. Speak to a member of the senior leadership team (SLT) and/or take advice from local authority children's social care. You can also seek advice at any time from the NSPCC helpline on 0808 800 5000. Share details of any actions you take with the DSL as soon as practically possible.

Make a referral to local authority children's social care directly, if appropriate (see 'Referral' below). Share any action taken with the DSL as soon as possible.

Early help

Early Help is 'acting on and referring early signs of abuse and neglect and radicalisation including support for children of all ages that improves a family's resilience and outcomes or reduces the chance of a problem getting worse'. (P174 KCSIE 2025)

If early help is appropriate, the DSL will generally lead on liaising with other agencies and setting up an inter-agency assessment as appropriate. Staff may be required to support other agencies and professionals in an early help assessment, in some cases acting as the lead practitioner.

The DSL will keep the case under constant review and the school will consider a referral to local authority children's social care if the situation does not seem to be improving. Timelines of interventions will be monitored and reviewed.

Referral

If it is appropriate to refer the case to local authority children's social care or the police, the DSL will make the referral or support you to do so.

If you make a referral directly, you must tell the DSL as soon as possible.

The local authority will make a decision within 1 working day of a referral about what course of action to take and will let the person who made the referral know the outcome. The DSL or person who made the referral must follow up with the local authority if this information is not made available, and ensure outcomes are properly recorded.

If the child's situation does not seem to be improving after the referral, the DSL or person who made the referral must follow local escalation procedures to ensure their concerns have been addressed and that the child's situation improves.

If you have concerns about extremism

If a child is not suffering or likely to suffer from harm, or in immediate danger, where possible speak to the DSL first to agree a course of action.

If in exceptional circumstances the DSL is not available, this should not delay appropriate action being taken. Speak to a member of the senior leadership team and/or seek advice from local authority children's social care. Make a referral to local authority children's social care directly, if appropriate (see 'Referral' above). Inform the DSL or deputy as soon as practically possible after the referral.

Where there is a concern, the DSL will consider the level of risk and decide which agency to make a referral to. This could include the police, or [Channel](#) (the government's programme for identifying and supporting individuals at risk of becoming involved with or supporting terrorism), or the local authority children's social care team.

The Department for Education also has a dedicated telephone helpline, 020 7340 7264, which school staff and governors can call to raise concerns about extremism with respect to a student. You can also email counter.extremism@education.gov.uk. Note that this is not for use in emergency situations.

In an emergency, call 999 or the confidential anti-terrorist hotline on 0800 789 321 if you:

Think someone is in immediate danger

Think someone may be planning to travel to join an extremist group

See or hear something that may be terrorist-related

All staff have undertaken up to date Prevent Training.

If you have a mental health concern

Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

Staff will be alert to behavioural signs that suggest a child may be experiencing a mental health problem or be at risk of developing one.

If you have a mental health concern about a child that is also a safeguarding concern, take immediate action by following the steps laid out in above in this policy.

If you have a mental health concern that is **not** also a safeguarding concern, speak to the DSL to agree a course of action.

The DSL will then make a referral through One Front Door to the Mental Health Team. If you believe the child to be at immediate risk due to their mental health call 999.

Figure 1: procedure if you have concerns about a child's welfare (as opposed to believing a child is suffering or likely to suffer from harm, or in immediate danger)
(Note – if the DSL is unavailable, this should not delay action. See section 7.4 for what to do.)

Flow chart for raising concerns about a child

Designated Safeguarding Lead(s)

Heidi Lindle DSL

Catherine Ford-DDSL

Concern added to the CPOMS safeguarding recording system

The local authority Designated officer for concerns about adults is:

Miloven Orlandich

Contact details:

01302 737777

Inform DSL of the concern as well as adding to CPOMS

DSL reviews concerns and discusses with Karen Holmes (Headteacher) & makes decision about next steps

Decision made to refer to social care

Decision made to monitor the concern

Decision made to informally discuss the incident with parents/carers

Discuss

DSL discussed the decision with senior leader / Headteacher and agree to refer to social care.

Once discussed with parents DSL decides to monitor or refer to Social Care

1:1 key adult asked to monitor child and feed back to DSL with an agreed timescale

Contact details Social Care Referrals

Your starting point: (Doncaster Safeguarding Children Partnership) - DSCP 01302 734214

Early Help duty line - 01302 736250 or MASH – (Multi Agency Safeguarding Hub)– 01302 737777

For child / Young persons mental health – 01302 796191

Prevent Channel Referrals 0800789321

Police refer – 101

Police emergency - 999

In exceptional circumstances may be referred directly to Children's Social care

Actions of all discussions and decisions made are recorded on CPOMS

Please see below for more useful contact details

Important changes to One Front Door

From Monday 20th January 2025 the One Front Door form will be turned off.

This will mean a change to the ways you refer to MASH and Early Help.

- If you are worried about a child or believe a child to be at risk of any kind of harm please select social care. Social services have a statutory obligation to safeguard and promote the welfare of vulnerable children and can provide a wide range of services to children and their parents, usually within the own home environment and co-ordinated by a social worker.
- If you are worried about a child because they are at risk of harm and wish to speak to someone, you can contact Doncaster Multi-Agency Safeguarding Hub (MASH) by calling 01302 737777 in the evening or at weekends call 01302 796000.
- You will no longer be required to follow a referral up in writing. Please make sure that you keep an accurate record of any concerns you have passed on including who you spoke to and the date and time of the call. Also record any next steps or actions agreed within the call.

Beginning the Early Help Process:

If a family has agreed to Early Help and you would like the Early Help pathway opened to you as Lead Practitioner, make contact with your local Early Help Coordinator directly or via their duty line: 01302 736250 or earlyhco@doncaster.gov.uk If a family has agreed to Early Help and you are unsure who is the appropriate Lead Practitioner or believe the family would benefit from this being a worker from specialist service, please phone the Early Help Hub duty line on 01302 734110. Always call 999 if someone is in immediate danger.

Concerns about a staff member

If you have concerns about a member of staff, or an allegation is made about a member of staff posing a risk of harm to children, speak to the headteacher as soon as possible. The headteacher will then follow the procedures set out in appendix 3, if appropriate.

If the concerns/allegations are about the headteacher, speak to the local authority designated officer (LADO), Civic Office, Waterdale, Doncaster, DN1 3BU

Tel: 01302 737332

Email: LADO@doncaster.gov.uk

Where you believe there is a conflict of interest in reporting a concern or allegation about a member of staff to the headteacher, report it to the DSL / DDSL, or directly to the local authority designated officer (LADO).

Allegations of abuse made against other students (Peer-on-peer abuse)

We recognise that children are capable of abusing their peers. Abuse will never be tolerated or passed off as “banter”, “just having a laugh” or “part of growing up”, as this can lead to a culture of unacceptable behaviours and an unsafe environment for students.

We also recognise the gendered nature of peer-on-peer abuse. However, all peer-on-peer abuse is unacceptable and will be taken seriously.

Most cases of students hurting other students will be dealt with under our school’s relational policy, but this child protection and safeguarding policy will apply to any allegations that raise safeguarding concerns. This might include where the alleged behaviour:

- Is serious, and potentially a criminal offence
- Could put students in the school at risk
- Is violent
- Involves students being forced to use drugs or alcohol
- Involves sexual exploitation, sexual abuse or sexual harassment, such as indecent exposure, sexual assault, upskirting or sexually inappropriate pictures or videos (including the sharing of nudes and semi-nudes)

See appendix 4 for more information about peer-on-peer abuse.

Procedures for dealing with allegations of peer-on-peer abuse

If a student makes an allegation of abuse against another student:

You must record the allegation and tell the DSL, but do not investigate it

The DSL will contact the local authority children’s social care team and follow its advice, as well as the police if the allegation involves a potential criminal offence

The DSL will put a risk assessment and support plan into place for all children involved (including the victim(s), the child(ren) against whom the allegation has been made and any others affected) with a named person they can talk to if needed

The DSL will contact the children and adolescent mental health services (CAMHS), if appropriate

Creating a supportive environment in school and minimising the risk of peer-on-peer abuse

We recognise the importance of taking proactive action to minimise the risk of peer-on-peer abuse, and of creating a supportive environment where victims feel confident in reporting incidents.

To achieve this, we will:

Challenge any form of derogatory or sexualised language or inappropriate behaviour between peers, including requesting or sending sexual images

Be vigilant to issues that particularly affect different genders – for example, sexualised or aggressive touching or grabbing towards female students, and initiation or hazing type violence with respect to boys

Ensure our curriculum helps to educate students about appropriate behaviour and consent

Ensure students are able to easily and confidently report abuse using our reporting systems

Ensure staff reassure victims that they are being taken seriously

Ensure staff are trained to understand:

- How to recognise the indicators and signs of peer-on-peer abuse, and know how to identify it and respond to reports
- That even if there are no reports of peer-on-peer abuse in school, it does not mean it is not happening – staff should maintain an attitude of “it could happen here”
- That if they have any concerns about a child’s welfare, they should act on them immediately rather than wait to be told, and that victims may not always make a direct report. For example:
 - Children can show signs or act in ways they hope adults will notice and react to
 - A friend may make a report
 - A member of staff may overhear a conversation
 - A child’s behaviour might indicate that something is wrong
- That certain children may face additional barriers to telling someone because of their vulnerability, disability, gender, ethnicity and/or sexual orientation
- That a student harming a peer could be a sign that the child is being abused themselves, and that this would fall under the scope of this policy
- The important role they have to play in preventing peer-on-peer abuse and responding where they believe a child may be at risk from it
- That they should speak to the DSL if they have any concerns

Sharing of nudes and semi-nudes (‘sexting’)

Based on [guidance from the UK Council for Internet Safety](#) for all staff and for [DSLs and senior leaders](#).

Teaching for children and young people follows best practice in delivering safe and effective education.

Your responsibilities when responding to an incident

If you are made aware of an incident involving the consensual or non-consensual sharing of nude or semi-nude images/videos (also known as ‘sexting’ or ‘youth produced sexual imagery’), you must report it to the DSL immediately. This also includes pseudo - images, which are computer - generated images that otherwise appear to be a photograph or video.

You must **not**:

View, copy, print, share, store or save the imagery yourself, or ask a student to share or download it (if you have already viewed the imagery by accident, you must report this to the DSL)

Delete the imagery or ask the student to delete it

Ask the student(s) who are involved in the incident to disclose information regarding the imagery (this is the DSL's responsibility)

Share information about the incident with other members of staff, the student(s) it involves or their, or other, parents and/or carers

Say or do anything to blame or shame any young people involved

You should explain that you need to report the incident and reassure the student(s) that they will receive support and help from the DSL.

Initial review meeting

Following a report of an incident, the DSL will hold an initial review meeting with appropriate school staff – this may include the staff member who reported the incident and the safeguarding or leadership team that deals with safeguarding concerns. This meeting will consider the initial evidence and aim to determine:

Whether there is an immediate risk to student(s)

If a referral needs to be made to the police and/or children's social care

If it is necessary to view the image(s) in order to safeguard the young person (in most cases, images or videos should not be viewed)

What further information is required to decide on the best response

Whether the image(s) has been shared widely and via what services and/or platforms (this may be unknown)

Whether immediate action should be taken to delete or remove images or videos from devices or online services

Any relevant facts about the students involved which would influence risk assessment

If there is a need to contact another school, college, setting or individual

Whether to contact parents or carers of the students involved (in most cases parents/carers should be involved)

The DSL will make an immediate referral to police and/or children's social care if:

The incident involves an adult

There is reason to believe that a young person has been coerced, blackmailed or groomed, or if there are concerns about their capacity to consent (for example owing to special educational needs)

What the DSL knows about the images or videos suggests the content depicts sexual acts which are unusual for the young person's developmental stage, or are violent

The imagery involves sexual acts and any student in the images or videos is under 13

The DSL has reason to believe a student is at immediate risk of harm owing to the sharing of nudes and semi-nudes (for example, the young person is presenting as suicidal or self-harming)

If none of the above apply then the DSL, in consultation with the headteacher and other members of staff as appropriate, may decide to respond to the incident without involving the police or children's social care. The decision will be made and recorded in line with the procedures set out in this policy.

Further review by the DSL

If at the initial review stage a decision has been made not to refer to police and/or children's social care, the DSL will conduct a further review to establish the facts and assess the risks.

They will hold interviews with the students involved (if appropriate).

If at any point in the process there is a concern that a student has been harmed or is at risk of harm, a referral will be made to children's social care and/or the police immediately.

Informing parents/carers

The DSL will inform parents/carers at an early stage and keep them involved in the process, unless there is a good reason to believe that involving them would put the student at risk of harm.

Referring to the police

If it is necessary to refer an incident to the police, this will be done through dialing 101.

Recording incidents

All incidents of sharing of nudes and semi-nudes, and the decisions made in responding to them, will be recorded. The record-keeping arrangements set out in section 14 of this policy also apply to recording these incidents.

Curriculum coverage

Students are taught about the issues surrounding the sharing of nudes and semi-nudes as part of our relationship's education and computing programmes. Teaching covers the following in relation to the sharing of nudes and semi-nudes:

What it is

How it is most likely to be encountered

The consequences of requesting, forwarding or providing such images, including when it is and is not abusive and when it may be deemed as online sexual harassment

Issues of legality

The risk of damage to people's feelings and reputation

Students also learn the strategies and skills needed to manage:

Specific requests or pressure to provide (or forward) such images

The receipt of such images

This policy on the sharing of nudes and semi-nudes is also shared with students so they are aware of the processes the school will follow in the event of an incident.

Reporting systems for our students

Where there is a safeguarding concern, we will take the child's wishes and feelings into account when determining what action to take and what services to provide.

We recognise the importance of ensuring students feel safe and comfortable to come forward and report any concerns and/or allegations.

To achieve this, we will:

Put systems in place for students to confidently report abuse

Create an easily accessible, child-friendly guide to making a disclosure, of which each child will be given a copy

Ensure our reporting systems are well promoted, easily understood and easily accessible for students

Make it clear to students that their concerns will be taken seriously, and that they can safely express their views and give feedback

8. Online safety and the use of mobile technology

We recognise the importance of safeguarding children from potentially harmful and inappropriate online material, and we understand that technology is a significant component in many safeguarding and wellbeing issues.

To address this, our school aims to:

Have robust processes in place to ensure the online safety of students and staff (See Cyber security, Digital strategy and E-Safety policies)

Protect and educate the whole school community in its safe and responsible use of technology, including mobile and smart technology (which we refer to as 'mobile phones')

Set clear guidelines for the use of mobile phones for the whole school community

Establish clear mechanisms to identify, intervene in and escalate any incidents or concerns, where appropriate

The 4 key categories of risk

Our approach to online safety is based on addressing the following categories of risk:

Content – being exposed to illegal, inappropriate or harmful content, such as pornography, fake news, racism, misogyny, self-harm, suicide, anti-Semitism, radicalisation and extremism

Contact – being subjected to harmful online interaction with other users, such as peer-to-peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes

Conduct – personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images (e.g. consensual and non-consensual

sharing of nudes and semi-nudes and/or pornography), sharing other explicit images and online bullying; and

Commerce – risks such as online gambling, inappropriate advertising, phishing and/or financial scams

Artificial Intelligence

The implications AI has for children's privacy, safety, and security fall across a wide spectrum, from benefits related to the ability to understand threats facing children with greater specificity and accuracy than ever before (and respond accordingly), to risks around unintended privacy infringements.

The positive and negative implications for children's privacy, safety, and security in an AI age are constantly changing as technology and understanding develops. As a school, the staff do utilise AI, and AI is included in our curriculum for use by staff where appropriate with careful management and monitoring.

According to documents published by The Children's Commissioner, England, the risks of AI to children and young people include:

- **Cyberbullying and sexual harassment:** The use of AI-generated text or images to bully or sexually harass children.
- **Generative child sexual abuse material (CSAM):** The [**Internet Watch Foundation**](#) has published on the key risks in this area. These include: AI alteration of CSAM to evade the detection systems used by platforms and law enforcement; AI-generated photorealistic CSAM; AI tools that allow perpetrators to generate CSAM material offline, where detection is not possible; and AI tools that can be used to generate CSAM images from images of real children (e.g., famous children, or children known to perpetrators).
- **Disinformation and fraud:** The use of plausible-seeming AI-generated text in the service of disinformation or fraud.
- **Impacts on education:** The use of AI tools that may undermine formal assessments and, ultimately, negatively impact on children's learning.
- **Privacy concerns:** AI tools rely on large datasets and there are important implications for how children's data is used and their privacy protected.
- **Bias or discrimination:** Bias in the design of systems or their underlying data leading to discrimination against some groups.

To meet our aims and address the risks above we will:

- Educate students about online safety as part of our curriculum. For example:
- The safe use of social media, the internet and technology
- Keeping personal information private
- Know how to recognise unacceptable behaviour online
- Know how to report any incidents of cyber-bullying, ensuring students are encouraged to do so, including where they are a witness rather than a victim

- Train staff, as part of their induction, on safe internet use and online safeguarding issues including cyber-bullying and the risks of online radicalisation. All staff members will receive refresher training at least once each academic year
- Educate parents/carers about online safety via our website, communications sent directly to them and during parents' evenings. We will also share clear procedures with them, so they know how to raise concerns about online safety
- Make sure staff are aware of any restrictions placed on them with regards to the use of their mobile phone and cameras, for example that:
- Staff are allowed to bring their personal phones to school for their own use, and to contact each other in cases of emergency due to 1:1 teaching
- Staff will not take pictures or recordings of students on their personal phones or cameras unless these photos are being uploaded to the EFL (Evidence for Learning) App on their phone or tablet.
- Explain the sanctions we will use if a student is in breach of our policies on the acceptable use of the internet and mobile phones
- Make sure all staff, students and parents/carers are aware that staff have the power to search students' phones, as set out in the [DfE's guidance on searching, screening and confiscation](#)
- Put in place robust filtering and monitoring systems to limit children's exposure to the 4 key categories of risk (described above) from the school's IT systems
- Carry out an annual review of our approach to online safety, supported by an annual risk assessment that considers and reflects the risks faced by our school community

This section summarises our approach to online safety and mobile phone use. For comprehensive details about our school's policy on online safety and the use of mobile phones.

9. Notifying parents or carers

Where appropriate, we will discuss any concerns about a child with the child's parents or carers. The DSL will normally do this in the event of a suspicion or disclosure.

Other staff will only talk to parents or carers about any such concerns following consultation with the DSL.

If we believe that notifying the parents or carers would increase the risk to the child, we will discuss this with the local authority children's social care team before doing so.

In the case of allegations of abuse made against other children, we will normally notify the parents or carers of all the children involved.

10. Students with special educational needs, disabilities or health issues

We recognise that students with SEND, or certain health conditions can face additional safeguarding challenges. Children with disabilities are more likely to be abused than their peers. Additional barriers such as cognitive understanding can exist when recognising abuse, neglect and exploitation in this group, including:

- Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's condition without further exploration
- Students being more prone to peer group isolation or bullying (including prejudice-based bullying) than other students
- The potential for students with SEND, disabilities or certain health conditions being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs
- Communication barriers and difficulties in managing or reporting these challenges

We offer extra pastoral support for these students. This includes:

- 1:1 tutor for all children unless certain criteria is in place to support small groups.
- Learning Managers for all children

11. Students with a social worker

Students may need a social worker due to safeguarding or welfare needs. We recognise that a child's experiences of adversity and trauma can leave them vulnerable to further harm as well as potentially creating barriers to attendance, learning, behaviour and mental health.

The DSL and all members of staff will work with and support social workers to help protect vulnerable children.

Where we are aware that a student has a social worker, the DSL will always consider this fact to ensure any decisions are made in the best interests of the student's safety, welfare and educational outcomes. For example, it will inform decisions about:

Responding to unauthorised absence or missing education where there are known safeguarding risks

The provision of pastoral and/or academic support

12. Looked-after and previously looked-after children

We will ensure that staff have the skills, knowledge and understanding to keep looked-after children and previously looked-after children safe. In particular, we will ensure that:

Appropriate staff have relevant information about children looked after legal status, contact arrangements with birth parents or those with parental responsibility, and care arrangements

The DSL has details of children's social workers and relevant virtual school heads

As part of their role, they will:

Work closely with the DSL to ensure that any safeguarding concerns regarding looked-after and previously looked-after children are quickly and effectively responded to

Work with virtual school heads to promote the educational achievement of looked-after and previously looked-after children

Students who are Lesbian, Gay, Bisexual or Gender Questioning

LGBTQ+ children and young people face the same risks as all children and young people, but they are at greater risk of some types of abuse. For example, they might experience

homophobic, biphobic or transphobic bullying or hate crime. They might also be more vulnerable to or at greater risk of sexual abuse, online abuse or sexual exploitation.

The section of KCSIE 2025 on gender questioning children remains under review, pending the outcome of the gender questioning children guidance consultation, and final gender questioning guidance documents being published.

We recognise that students who are (or who are perceived to be) lesbian, gay, bisexual or gender questioning (LGBTQ+) can be targeted by other children.

We also recognise that LGBTQ+ children are more likely to experience poor mental health. Any concerns should be reported to the DSL, who will then liaise with the appropriate services if required.

When families/carers are making decisions about support for gender questioning students, they should be encouraged to seek clinical help and advice. This should be done as early as possible when supporting pre-pubertal children.

When supporting a gender questioning student, we will take a cautious approach as there are still unknowns around the impact of social transition, and a student may have wider vulnerability, such as complex mental health and psychosocial needs, and in some cases, autism and/or attention deficit hyperactivity disorder (ADHD).

We will also consider the broad range of their individual needs, in partnership with their parents/carers (other than in rare circumstances where involving parents/carers would constitute a significant risk of harm to the student). We will also include any clinical advice that is available and consider how to address wider vulnerabilities such as the risk of bullying.

Risks can be compounded where children lack trusted adults with whom they can be open. We therefore aim to reduce the additional barriers faced and create a culture where students can speak out or share their concerns with members of staff.

13. Complaints and concerns about school safeguarding policies

Complaints against staff

Complaints against staff that are likely to require a child protection investigation will be handled in accordance with our procedures for dealing with allegations of abuse made against staff (see appendix 3).

Other complaints

Please see the School's Complaints Policy which can be found on our website

Whistle-blowing

Please see the School's Whistleblowing Policy which can be found on our website

14. Record-keeping

We will hold records in line with our records retention schedule.

All safeguarding concerns, discussions, decisions made and the reasons for those decisions, must be recorded in writing. If you are in any doubt about whether to record something, discuss it with the DSL.

Records will include:

A clear and comprehensive summary of the concern

Details of how the concern was followed up and resolved

A note of any action taken, decisions reached and the outcome

Concerns and referrals will be kept in a separate child protection file for each child.

Any non-confidential records will be readily accessible and available. Confidential information and records will be held securely and only available to those who have a right or professional need to see them.

Safeguarding records relating to individual children will be retained for a reasonable period of time after they have left the school.

Safeguarding records which contain information about allegations of sexual abuse will be retained for the Independent Inquiry into Child Sexual Abuse (IICSA), for the term of the inquiry.

If a child for whom the school has, or has had, safeguarding concerns moves to another school, the DSL will ensure that their child protection file is forwarded promptly and securely, and separately from the main student file. In addition, if the concerns are significant or complex, and/or social services are involved, the DSL will speak to the DSL of the receiving school and provide information to enable them to have time to make any necessary preparations to ensure the safety of the child.

Safeguarding records are kept in both paper-based format in the child's Safeguarding File, and electronic format on CPOMs

All paper-based records are kept in the child's separate file under double lock

All information shared with relevant agencies is transferred electronically using password protection

In addition:

Appendix 2 sets out our policy on record-keeping specifically with respect to recruitment and pre-appointment checks

Appendix 3 sets out our policy on record-keeping with respect to allegations of abuse made against staff

15. Training

All staff

All staff members will undertake L3 Safeguarding Training and will receive child protection training at induction, including on whistle-blowing procedures and online safety, to ensure they understand the school's safeguarding systems and their responsibilities, and can identify signs of possible abuse or neglect.

This training will be regularly updated and will:

Be integrated, aligned and considered as part of the whole-school safeguarding approach and wider staff training, and curriculum planning

Be in line with advice from the 3 safeguarding partners

Have regard to the Teachers' Standards to support the expectation that all teachers:

- Manage behaviour effectively to ensure a good and safe environment
- Have a clear understanding of the needs of all students

All staff will have training on the government's anti-radicalisation strategy, Prevent, to enable them to identify children at risk of being drawn into terrorism and to challenge extremist ideas.

Staff will also receive regular safeguarding and child protection updates, including on online safety, as required but at least annually (for example, through emails, e-bulletins and staff meetings).

Contractors who are provided through a private finance initiative (PFI) or similar contract will also receive safeguarding training.

The DSL and DDSL

The DSL and DDSL will undertake child protection and safeguarding training at least every 2 years.

In addition, they will update their knowledge and skills at regular intervals and at least annually (for example, through e-bulletins, meeting other DSLs, or taking time to read and digest safeguarding developments).

They will also undertake Prevent awareness training.

Recruitment – interview panels

At least one person conducting any interview for any post at the school will have undertaken safer recruitment training. This will cover, as a minimum, the contents of Keeping Children Safe in Education, and will be in line with local safeguarding procedures.

See appendix 2 of this policy for more information about our safer recruitment procedures.

Staff who have contact with students and families

All staff who have contact with children and families will have supervisions which will provide them with support, coaching and training, promote the interests of children and allow for confidential discussions of sensitive issues.

16. Monitoring arrangements

This policy will be reviewed **annually** by Karen Holmes (Headteacher)

17. Links with other policies

This policy links to the following policies and procedures:

Designated teacher for looked-after and previously looked-after children

Privacy notices

These appendices are based on the Department for Education's statutory guidance, Keeping Children Safe in Education.

18. Appendix 1: types of abuse

Abuse, including neglect, and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases, multiple issues will overlap.

Physical abuse may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse is the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Emotional abuse may involve:

Conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person

Not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate

Age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction

Seeing or hearing the ill-treatment of another

Serious bullying (including cyber-bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children

Sexual abuse involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve:

Physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing

Non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet)

Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Neglect is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse.

Once a child is born, neglect may involve a parent or carer failing to:

Provide adequate food, clothing and shelter (including exclusion from home or abandonment)

Protect a child from physical and emotional harm or danger

Ensure adequate supervision (including the use of inadequate care-givers)

Ensure access to appropriate medical care or treatment

It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

19. Appendix 2: safer recruitment and DBS checks – policy and procedures

Recruitment and selection process

To make sure we recruit suitable people, we will ensure that those involved in the recruitment and employment of staff to work with children have received appropriate safer recruitment training.

We have put the following steps in place during our recruitment and selection process to ensure we are committed to safeguarding and promoting the welfare of children.

Advertising

When advertising roles, we will make clear:

Our school's commitment to safeguarding and promoting the welfare of children

That safeguarding checks will be undertaken

The safeguarding requirements and responsibilities of the role, such as the extent to which the role will involve contact with children

Whether or not the role is exempt from the Rehabilitation of Offenders Act 1974 and the amendments to the Exceptions Order 1975, 2013 and 2020. If the role is exempt, certain

spent convictions and cautions are 'protected', so they do not need to be disclosed, and if they are disclosed, we cannot take them into account

Application forms

Our application forms will:

Include a statement saying that it is an offence to apply for the role if an applicant is barred from engaging in regulated activity relevant to children (where the role involves this type of regulated activity)

Include a copy of, or link to, our child protection and safeguarding policy and our policy on the employment of ex-offenders

Shortlisting

Our shortlisting process will involve at least 2 people and will:

Consider any inconsistencies and look for gaps in employment and reasons given for them

Explore all potential concerns

Once we have shortlisted candidates, we will ask shortlisted candidates to:

Complete a self-declaration of their criminal record or any information that would make them unsuitable to work with children, so that they have the opportunity to share relevant information and discuss it at interview stage. The information we will ask for includes:

- If they have a criminal history
- Whether they are included on the barred list
- Whether they are prohibited from teaching
- Information about any criminal offences committed in any country in line with the law as applicable in England and Wales
- Any relevant overseas information

Sign a declaration confirming the information they have provided is true

Seeking references and checking employment history

We will obtain references before interview. Any concerns raised will be explored further with referees and taken up with the candidate at interview.

When seeking references we will:

Not accept open references

Liaise directly with referees and verify any information contained within references with the referees

Ensure any references are from the candidate's current employer and completed by a senior person. Where the referee is school based, we will ask for the reference to be confirmed by the headteacher/principal as accurate in respect to disciplinary investigations

Obtain verification of the candidate's most recent relevant period of employment if they are not currently employed

Secure a reference from the relevant employer from the last time the candidate worked with children if they are not currently working with children

Compare the information on the application form with that in the reference and take up any inconsistencies with the candidate

Resolve any concerns before any appointment is confirmed

If references can't be obtained for any reason a robust risk assessment will be put in place to negate any risk they may pose if working 1:1 with children.

Interview and selection

When interviewing candidates, we will:

Probe any gaps in employment, or where the candidate has changed employment or location frequently, and ask candidates to explain this

Explore any potential areas of concern to determine the candidate's suitability to work with children

Record all information considered and decisions made

Pre-appointment vetting checks

We will record all information on the checks carried out in the school's single central record (SCR). Copies of these checks, where appropriate, will be held in individuals' personnel files. We follow requirements and best practice in retaining copies of these checks, as set out below.

Michelle Needam (School business manager) is responsible for the SCR and the DSL/DDSL checks this record termly, if a "gap" or "Error" is detected this is reported to Michelle. Following this dependant on the error actions are taken accordingly to rectify this. A record of these checks is kept on the SCR.

New staff

All offers of appointment will be conditional until satisfactory completion of the necessary pre-employment checks. When appointing new staff, we will:

Verify their identity

Obtain (via the applicant) an enhanced DBS certificate, including barred list information for those who will be engaging in regulated activity (see definition below). We will obtain the certificate before, or as soon as practicable after, appointment, including when using the DBS update service. We will not keep a copy of the certificate for longer than 6 months, but when the copy is destroyed, we may still keep a record of the fact that vetting took place, the result of the check and recruitment decision taken

Obtain a separate barred list check if they will start work in regulated activity before the DBS certificate is available

Verify their mental and physical fitness to carry out their work responsibilities

Verify their right to work in the UK. We will keep a copy of this verification for the duration of the member of staff's employment and for 2 years afterwards

Verify their professional qualifications, as appropriate

Ensure they are not subject to a prohibition order if they are employed to be a teacher

Carry out further additional checks, as appropriate, on candidates who have lived or worked outside of the UK. Where available, these will include:

- For all staff, including teaching positions: [criminal records checks for overseas applicants](#)
- For teaching positions: obtaining a letter of professional standing from the professional regulating authority in the country where the applicant has worked

Check that candidates taking up a management position* are not subject to a prohibition from management (section 128) direction made by the secretary of state

* Management positions are most likely to include, but are not limited to, headteachers, principals and deputy/assistant headteachers.

We will ensure that appropriate checks are carried out to ensure that individuals are not disqualified under the 2018 Childcare Disqualification Regulations and Childcare Act 2006. Where we take a decision that an individual falls outside of the scope of these regulations and we do not carry out such checks, we will retain a record of our assessment on the individual's personnel file. This will include our evaluation of any risks and control measures put in place, and any advice sought.

Regulated activity means a person who will be:

Responsible, on a regular basis in a school or college, for teaching, training, instructing, caring for or supervising children; or

Carrying out paid, or unsupervised unpaid, work regularly in a school or college where that work provides an opportunity for contact with children; or

Engaging in intimate or personal care or overnight activity, even if this happens only once and regardless of whether they are supervised or not

Existing staff

In certain circumstances we will carry out all the relevant checks on existing staff as if the individual was a new member of staff. These circumstances are when:

There are concerns about an existing member of staff's suitability to work with children; or

An individual moves from a post that is not regulated activity to one that is; or

There has been a break in service of 12 weeks or more

We will refer to the DBS anyone who has harmed, or poses a risk of harm, to a child or vulnerable adult where:

We believe the individual has engaged in [relevant conduct](#); or

We believe the individual has received a caution or conviction for a relevant (automatic barring either with or without the right to make representations) offence, under the [Safeguarding Vulnerable Groups Act 2006 \(Prescribed Criteria and Miscellaneous Provisions\) Regulations 2009](#); or

We believe the 'harm test' is satisfied in respect of the individual (i.e. they may harm a child or vulnerable adult or put them at risk of harm); and

The individual has been removed from working in regulated activity (paid or unpaid) or would have been removed if they had not left

20. Appendix 3: allegations of abuse made against staff

Section 1: allegations that may meet the harms threshold

This section applies to all cases in which it is alleged that a current member of staff

Behaved in a way that has harmed a child, or may have harmed a child, and/or

Possibly committed a criminal offence against or related to a child, and/or

Behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children, and/or

Behaved or may have behaved in a way that indicates they may not be suitable to work with children – this includes behaviour taking place both inside and outside of school

We will deal with any allegation of abuse quickly, in a fair and consistent way that provides effective child protection while also supporting the individual who is the subject of the allegation.

Our procedures for dealing with allegations will be applied with common sense and judgement.

Suspension of the accused until the case is resolved

Suspension of the accused will not be the default position and will only be considered in cases where there is reason to suspect that a child or other children is/are at risk of harm, or the case is so serious that there might be grounds for dismissal. In such cases, we will only suspend an individual if we have considered all other options available and there is no reasonable alternative.

Based on an assessment of risk, we will consider alternatives such as:

Redeployment within the school so that the individual does not have direct contact with the child or children concerned

Providing an assistant to be present when the individual has contact with children

Redeploying the individual to alternative work in the school so that they do not have unsupervised access to children

Moving the child or children to classes where they will not come into contact with the individual, making it clear that this is not a punishment, and parents/carers have been consulted

If in doubt, the case manager will seek views from the school's HR Company and the designated officer at the local authority, as well as the police and children's social care where they have been involved.

Definitions for outcomes of allegation investigations

Substantiated: there is sufficient evidence to prove the allegation

Malicious: there is sufficient evidence to disprove the allegation and there has been a deliberate act to deceive, or to cause harm to the subject of the allegation

False: there is sufficient evidence to disprove the allegation

Unsubstantiated: there is insufficient evidence to either prove or disprove the allegation (this does not imply guilt or innocence)

Unfounded: to reflect cases where there is no evidence or proper basis which supports the allegation being made

Procedure for dealing with allegations

In the event of an allegation that meets the criteria above, the case manager will take the following steps:

Conduct basic enquiries in line with local procedures to establish the facts to help determine whether there is any foundation to the allegation before carrying on with the steps below

Discuss the allegation with the designated officer at the local authority. This is to consider the nature, content and context of the allegation and agree a course of action, including whether further enquiries are necessary to enable a decision on how to proceed, and whether it is necessary to involve the police and/or children's social care services. (The case manager may, on occasion, consider it necessary to involve the police *before* consulting the designated officer – for example, if the accused individual is deemed to be an immediate risk to children or there is evidence of a possible criminal offence. In such cases, the case manager will notify the designated officer as soon as practicably possible after contacting the police)

Inform the accused individual of the concerns or allegations and likely course of action as soon as possible after speaking to the designated officer (and the police or children's social care services, where necessary). Where the police and/or children's social care services are involved, the case manager will only share such information with the individual as has been agreed with those agencies

Where appropriate (in the circumstances described above), carefully consider whether suspension of the individual from contact with children at the school is justified or whether alternative arrangements such as those outlined above can be put in place. Advice will be sought from the designated officer, police and/or children's social care services, as appropriate

Where the case manager is concerned about the welfare of other children in the community or the individual's family, they will discuss these concerns with the DSL and make a risk assessment of the situation. If necessary, the DSL may make a referral to children's social care

If immediate suspension is considered necessary, agree and record the rationale for this with the designated officer. The record will include information about the alternatives to suspension that have been considered, and why they were rejected. Written confirmation of the suspension will be provided to the individual facing the allegation or concern within 1 working day, and the individual will be given a named contact at the school and their contact details

If it is decided that no further action is to be taken in regard to the subject of the allegation or concern, record this decision and the justification for it and agree with the designated officer what information should be put in writing to the individual and by whom, as well as what action should follow both in respect of the individual and those who made the initial allegation

If it is decided that further action is needed, take steps as agreed with the designated officer to initiate the appropriate action in school and/or liaise with the police and/or children's social care services as appropriate

Provide effective support for the individual facing the allegation or concern, including appointing a named representative to keep them informed of the progress of the case and considering what other support is appropriate. The individual can seek advice and support from their Union, ACA, or from the school's independent HR Company; details of whom will be made available to them.

Inform the parents or carers of the child/children involved about the allegation as soon as possible if they do not already know (following agreement with children's social care services and/or the police, if applicable). The case manager will also inform the parents or carers of the requirement to maintain confidentiality about any allegations made against teachers (where this applies) while investigations are ongoing. Any parent or carer who wishes to have the confidentiality restrictions removed in respect of a teacher will be advised to seek legal advice

Keep the parents or carers of the child/children involved informed of the progress of the case (only in relation to their child – no information will be shared regarding the staff member)

Make a referral to the DBS where it is thought that the individual facing the allegation or concern has engaged in conduct that harmed or is likely to harm a child, or if the individual otherwise poses a risk of harm to a child

If the school is made aware that the Secretary of State has made an interim prohibition order in respect of an individual, we will immediately suspend that individual from teaching, pending the findings of the investigation by the Teaching Regulation Agency.

Where the police are involved, wherever possible the school will ask the police at the start of the investigation to obtain consent from the individuals involved to share their statements and evidence for use in the school's disciplinary process, should this be required at a later point.

Timescales:

We will deal with all allegations as quickly and effectively as possible and will endeavour to comply with the following timescales, where reasonably practicable:

Any cases where it is clear immediately that the allegation is unsubstantiated or malicious should be resolved within 1 week

If the nature of an allegation does not require formal disciplinary action, appropriate action should be taken within 3 working days

If a disciplinary hearing is required and can be held without further investigation, this should be held within 15 working days

However, these are objectives only and where they are not met, we will endeavour to take the required action as soon as possible thereafter.

Specific actions

Action following a criminal investigation or prosecution

The case manager will discuss with the local authority's designated officer whether any further action, including disciplinary action, is appropriate and, if so, how to proceed, taking into account information provided by the police and/or children's social care services.

Conclusion of a case where the allegation is substantiated

If the allegation is substantiated and the individual is dismissed or the school ceases to use their services, or the individual resigns or otherwise ceases to provide their services, the school will make a referral to the DBS for consideration of whether inclusion on the barred lists is required.

If the individual concerned is a member of teaching staff, the school will consider whether to refer the matter to the Teaching Regulation Agency to consider prohibiting the individual from teaching.

Individuals returning to work after suspension

If it is decided on the conclusion of a case that an individual who has been suspended can return to work, the case manager will consider how best to facilitate this.

The case manager will also consider how best to manage the individual's contact with the child or children who made the allegation, if they are still attending the school.

Unsubstantiated, unfounded, false or malicious reports

If a report is:

Determined to be unsubstantiated, unfounded, false or malicious, the DSL will consider the appropriate next steps. If they consider that the child and/or person who made the allegation is in need of help, or the allegation may have been a cry for help, a referral to children's social care may be appropriate

Shown to be deliberately invented, or malicious, the school will consider whether any disciplinary action is appropriate against the individual(s) who made it

Unsubstantiated, unfounded, false or malicious allegations

If an allegation is:

Determined to be unsubstantiated, unfounded, false or malicious, the LADO and case manager will consider the appropriate next steps. If they consider that the child and/or person who made the allegation is in need of help, or the allegation may have been a cry for help, a referral to children's social care may be appropriate

Shown to be deliberately invented, or malicious, the school will consider whether any disciplinary action is appropriate against the individual(s) who made it

Confidentiality and information sharing

The school will make every effort to maintain confidentiality and guard against unwanted publicity while an allegation is being investigated or considered.

The case manager will take advice from the LADO, police and children's social care services, as appropriate, to agree:

- Who needs to know about the allegation and what information can be shared
- How to manage speculation, leaks and gossip, including how to make parents or carers of a child/children involved aware of their obligations with respect to confidentiality
- What, if any, information can be reasonably given to the wider community to reduce speculation
- How to manage press interest if, and when, it arises

Record-keeping

The case manager will maintain clear records about any case where the allegation or concern meets the criteria above and store them on the individual's confidential personnel file for the duration of the case.

The records of any allegation that, following an investigation, is found to be malicious or false will be deleted from the individual's personnel file (unless the individual consents for the records to be retained on the file).

For all other allegations (which are not found to be malicious or false), the following information will be kept on the file of the individual concerned:

- A clear and comprehensive summary of the allegation
- Details of how the allegation was followed up and resolved
- Notes of any action taken, decisions reached and the outcome
- A declaration on whether the information will be referred to in any future reference

In these cases, the school will provide a copy to the individual, in agreement with children's social care or the police as appropriate.

Where records contain information about allegations of sexual abuse, we will preserve these for the Independent Inquiry into Child Sexual Abuse (IICSA), for the term of the inquiry. We will retain all other records at least until the individual has reached normal pension age, or for 10 years from the date of the allegation if that is longer.

References

When providing employer references, we will:

Not refer to any allegation that has been found to be false, unfounded, unsubstantiated or malicious, or any repeated allegations which have all been found to be false, unfounded, unsubstantiated or malicious

Include substantiated allegations, provided that the information is factual and does not include opinions

Learning lessons

After any cases where the allegations are *substantiated*, the case manager will review the circumstances of the case with the local authority's designated officer to determine whether there are any improvements that we can make to the school's procedures or practice to help prevent similar events in the future.

This will include consideration of (as applicable):

- Issues arising from the decision to suspend the member of staff
- The duration of the suspension
- Whether or not the suspension was justified
- The use of suspension when the individual is subsequently reinstated. We will consider how future investigations of a similar nature could be carried out without suspending the individual

For all other cases, the case manager will consider the facts and determine whether any improvements can be made.

Non-recent allegations

Abuse can be reported, no matter how long ago it happened.

We will report any non-recent allegations made by a child to the LADO in line with our local authority's procedures for dealing with non-recent allegations.

Where an adult makes an allegation to the school that they were abused as a child, we will advise the individual to report the allegation to the police.

Section 2: concerns that do not meet the harm threshold

This section applies to all concerns (including allegations) about members of staff, including supply teachers, volunteers and contractors, which do not meet the harm threshold set out in section 1 above.

Concerns may arise through, for example:

Suspicion

Complaint

Disclosure made by a child, parent or other adult within or outside the school

Pre-employment vetting checks

We recognise the importance of responding to and dealing with any concerns in a timely manner to safeguard the welfare of children.

Definition of low-level concerns

The term 'low-level' concern is any concern – no matter how small – that an adult working in or on behalf of the school may have acted in a way that:

Is inconsistent with the staff code of conduct, including inappropriate conduct outside of work, **and**

Does not meet the allegations threshold or is otherwise not considered serious enough to consider a referral to the designated officer at the local authority

Examples of such behaviour could include, but are not limited to:

Being overly friendly with children

Having favourites

Taking photographs of children on their mobile phone

Engaging with a child on a one-to-one basis in a secluded area or behind a closed door

Using inappropriate sexualised, intimidating or offensive language

Sharing low-level concerns

We recognise the importance of creating a culture of openness, trust and transparency to encourage all staff to share low-level concerns so that they can be addressed appropriately.

We will create this culture by:

Ensuring staff are clear about what appropriate behaviour is, and are confident in distinguishing expected and appropriate behaviour from concerning, problematic or inappropriate behaviour, in themselves and others

Empowering staff to share any low-level concerns as per section 7.7 of this policy

Empowering staff to self-refer

Addressing unprofessional behaviour and supporting the individual to correct it at an early stage

Providing a responsive, sensitive and proportionate handling of such concerns when they are raised

Helping to identify any weakness in the school's safeguarding system

Responding to low-level concerns

If the concern is raised via a third party, the headteacher will collect evidence where necessary by speaking:

Directly to the person who raised the concern, unless it has been raised anonymously

To the individual involved and any witnesses

The headteacher will use the information collected to categorise the type of behaviour and determine any further action, in line with the School's Code of Conduct and Low-Level Concerns Policy.

Record keeping

All low-level concerns will be recorded in writing. In addition to details of the concern raised, records will include the context in which the concern arose, any action taken and the rationale for decisions and action taken.

Records will be:

Kept confidential, held securely and comply with the DPA 2018 and UK GDPR

Reviewed so that potential patterns of concerning, problematic or inappropriate behaviour can be identified. Where a pattern of such behaviour is identified, we will decide on a course

of action, either through our disciplinary procedures or, where a pattern of behaviour moves from a concern to meeting the harms threshold as described in section 1 of this appendix, we will refer it to the designated officer at the local authority

Retained at least until the individual leaves' employment at the school

Where a low-level concern relates to a supply teacher or contractor, we will notify the individual's employer, so any potential patterns of inappropriate behaviour can be identified.

References

We will not include low-level concerns in references unless:

The concern (or group of concerns) has met the threshold for referral to the designated officer at the local authority and is found to be substantiated; and/or

The concern (or group of concerns) relates to issues which would ordinarily be included in a reference, such as misconduct or poor performance

21. Appendix 4: specific safeguarding issues

Children missing from education

A child with unexplainable and/or persistent absences from education, can be a warning sign of a range of safeguarding issues. This might include abuse or neglect, such as sexual abuse or exploitation or child criminal exploitation, or issues such as mental health problems, substance abuse, radicalisation, FGM or forced marriage.

There are many circumstances where a child may become missing from education, but some children are particularly at risk. These include children who:

- Are at risk of harm, neglect or exploitation
- Are at risk of forced marriage or FGM
- Come from Gypsy, Roma, or Traveller families
- Come from the families of service personnel
- Go missing or run away from home or care
- Are supervised by the youth justice system
- Cease to attend a school
- Come from new migrant families

We will follow our procedures for unauthorised absence and for dealing with children who go missing from education, particularly on repeat occasions, to help identify the risk of abuse, neglect and exploitation including sexual exploitation, and to help prevent the risks of going missing in future. This includes informing the local authority if a child leaves the school without a new school being named and adhering to requirements with respect to sharing information with the local authority, when applicable, when removing a child's name from the admission register at non-standard transition points.

Staff will be trained in signs to look out for and the individual triggers to be aware of when considering the risks of potential safeguarding concerns which may be related to being missing, such as travelling to conflict zones, FGM and forced marriage.

If a staff member suspects that a child is suffering from harm, neglect or exploitation we will follow local child protection procedures, including with respect to making reasonable enquiries. We will make an immediate referral to the local authority children's social care team, and the police, if the child is suffering or likely to suffer from harm, or in immediate danger.

Child criminal exploitation

Child criminal exploitation (CCE) is a form of abuse where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into criminal activity. It may involve an exchange for something the victim needs or wants, and/or for the financial or other advantage of the perpetrator or facilitator, and/or through violence or the threat of violence.

The abuse can be perpetrated by males or females, and children or adults. It can be a one-off occurrence or a series of incidents over time and range from opportunistic to complex organised abuse.

The victim can be exploited even when the activity appears to be consensual. It does not always involve physical contact and can happen online. For example, young people may be forced to work in cannabis factories, coerced into moving drugs or money across the country (county lines), forced to shoplift or pickpocket, or to threaten other young people.

Indicators of CCE can include a child:

Appearing with unexplained gifts or new possessions

Associating with other young people involved in exploitation

Suffering from changes in emotional wellbeing

Misusing drugs and alcohol

Going missing for periods of time or regularly coming home late

Regularly missing school or education

Not taking part in education

If a member of staff suspects CCE, they will discuss this with the DSL. The DSL will trigger the local safeguarding procedures, including a referral to the local authority's children's social care team and the police, if appropriate.

Child sexual exploitation

Child sexual exploitation (CSE) is a form of child sexual abuse where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into sexual activity. It may involve an exchange for something the victim needs or wants and/or for the financial advantage or increased status of the perpetrator or facilitator. It may, or may not, be accompanied by violence or threats of violence.

The abuse can be perpetrated by males or females, and children or adults. It can be a one-off occurrence or a series of incidents over time and range from opportunistic to complex organised abuse.

The victim can be exploited even when the activity appears to be consensual. Children or young people who are being sexually exploited may not understand that they are being abused. They often trust their abuser and may be tricked into believing they are in a loving, consensual relationship.

CSE can include both physical contact (penetrative and non-penetrative acts) and non-contact sexual activity. It can also happen online. For example, young people may be persuaded or forced to share sexually explicit images of themselves, have sexual conversations by text, or take part in sexual activities using a webcam. CSE may also occur without the victim's immediate knowledge, for example through others copying videos or images.

In addition to the CCE indicators above, indicators of CSE can include a child:

Having an older boyfriend or girlfriend

Suffering from sexually transmitted infections or becoming pregnant

If a member of staff suspects CSE, they will discuss this with the DSL. The DSL will trigger the local safeguarding procedures, including a referral to the local authority's children's social care team and the police, if appropriate.

Domestic abuse

Children can witness and be adversely affected by domestic abuse and/or violence at home where it occurs between family members. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result.

Types of domestic abuse include intimate partner violence, abuse by family members, teenage relationship abuse and child/adolescent to parent violence and abuse. Anyone can be a victim of domestic abuse, regardless of gender, age, ethnicity, socioeconomic status, sexuality or background. This can be particularly relevant, for example, in relation to the impact on children of all forms of domestic abuse, including where they see, hear or experience its effects.

Older children may also experience domestic abuse and/or violence in their own personal relationships.

Exposure to domestic abuse and/or violence can have a serious, long-lasting emotional and psychological impact on children. This can be particularly relevant, for example, in relation to the impact on children of all forms of domestic abuse, including where they see, hear or experience its effects.

This policy acknowledges 'the impact on children of all forms of domestic abuse, including where they see, hear or experience its effects.'

If police are called to an incident of domestic abuse and any children in the household have experienced the incident, the police will inform the key adult in school (usually the designated safeguarding lead) before the child or children arrive at school the following day.

The DSL will provide support according to the child's needs and update records about their circumstances.

Homelessness

Being homeless or being at risk of becoming homeless presents a real risk to a child's welfare.

The DSL and deputies will be aware of contact details and referral routes into the local housing authority so they can raise/progress concerns at the earliest opportunity (where appropriate and in accordance with local procedures).

Where a child has been harmed or is at risk of harm, the DSL will also make a referral to children's social care.

So-called 'honour-based' abuse (including FGM and forced marriage)

So-called 'honour-based' abuse (HBA) encompasses incidents or crimes committed to protect or defend the honour of the family and/or community, including FGM, forced marriage, and practices such as breast ironing.

Abuse committed in this context often involves a wider network of family or community pressure and can include multiple perpetrators.

All forms of HBA are abuse and will be handled and escalated as such. All staff will be alert to the possibility of a child being at risk of HBA or already having suffered it. If staff have a concern, they will speak to the DSL, who will activate local safeguarding procedures.

FGM

The DSL will make sure that staff have access to appropriate training to equip them to be alert to children affected by FGM or at risk of FGM.

Section 7.3 of this policy sets out the procedures to be followed if a staff member discovers that an act of FGM appears to have been carried out or suspects that a student is at risk of FGM.

Indicators that FGM has already occurred include:

- A student confiding in a professional that FGM has taken place
- A mother/family member disclosing that FGM has been carried out
- A family/student already being known to social services in relation to other safeguarding issues
- A girl:
 - Having difficulty walking, sitting or standing, or looking uncomfortable
 - Finding it hard to sit still for long periods of time (where this was not a problem previously)
 - Spending longer than normal in the bathroom or toilet due to difficulties urinating
 - Having frequent urinary, menstrual or stomach problems
 - Avoiding physical exercise or missing PE
 - Being repeatedly absent from school, or absent for a prolonged period
 - Demonstrating increased emotional and psychological needs – for example, withdrawal or depression, or significant change in behaviour
 - Being reluctant to undergo any medical examinations

- Asking for help, but not being explicit about the problem
- Talking about pain or discomfort between her legs

Potential signs that a student may be at risk of FGM include:

- The girl's family having a history of practising FGM (this is the biggest risk factor to consider)
- FGM being known to be practised in the girl's community or country of origin
- A parent or family member expressing concern that FGM may be carried out
- A family not engaging with professionals (health, education or other) or already being known to social care in relation to other safeguarding issues
- A girl:
 - Having a mother, older sibling or cousin who has undergone FGM
 - Having limited level of integration within UK society
 - Confiding to a professional that she is to have a "special procedure" or to attend a special occasion to "become a woman"
 - Talking about a long holiday to her country of origin or another country where the practice is prevalent, or parents/carers stating that they or a relative will take the girl out of the country for a prolonged period
 - Requesting help from a teacher or another adult because she is aware or suspects that she is at immediate risk of FGM
 - Talking about FGM in conversation – for example, a girl may tell other children about it (although it is important to take into account the context of the discussion)
 - Being unexpectedly absent from school
 - Having sections missing from her 'red book' (child health record) and/or attending a travel clinic or equivalent for vaccinations/anti-malarial medication

The above indicators and risk factors are not intended to be exhaustive.

Forced marriage

Forcing a person into marriage is a crime. A forced marriage is one entered into without the full and free consent of one or both parties and where violence, threats, or any other form of coercion is used to cause a person to enter into a marriage. Threats can be physical or emotional and psychological.

Staff will receive training around forced marriage and the presenting symptoms. We are aware of the 'one chance' rule, i.e. we may only have one chance to speak to the potential victim and only one chance to save them.

If a member of staff suspects that a student is being forced into marriage, they will speak to the student about their concerns in a secure and private place. They will then report this to the DSL.

The DSL will:

- Speak to the student about the concerns in a secure and private place

- Activate the local safeguarding procedures and refer the case to the local authority's designated officer
- Seek advice from the Forced Marriage Unit on 020 7008 0151 or fmufco.gov.uk
- Refer the student to an education welfare officer, pastoral tutor, learning mentor, or school counsellor, as appropriate

Preventing radicalisation

Radicalisation refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups

Extremism is the promotion or advancement of an ideology based on violence, hatred or intolerance that aims to:

- negate or destroy the fundamental rights and freedom of others
- undermine, overturn or replace the UK's system of liberal parliamentary democracy and democratic rights.
- intentionally create a permissive environment for others to achieve the results in (1) or (2).

Terrorism is an action that:

- Endangers or causes serious violence to a person/people.
- Causes serious damage to property; or
- Seriously interferes or disrupts an electronic system

The use or threat of terrorism must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause.

Schools have a duty to prevent children from becoming involved with or supporting terrorism. The DSL will undertake Prevent awareness training and make sure that staff have access to appropriate training to equip them to identify children at risk.

We will assess the risk of children in our school being drawn into terrorism. This assessment will be based on an understanding of the potential risk in our local area, in collaboration with our local safeguarding partners and local police force.

We will ensure that suitable internet filtering is in place and equip our students to stay safe online at school and at home.

There is no single way of identifying an individual who is likely to be susceptible to radicalisation into terrorism. Radicalisation can occur quickly or over a long period.

Staff will be alert to changes in students' behaviour.

The government website [Educate Against Hate](#) and charity [NSPCC](#) say that signs that a student is being radicalised can include:

- Refusal to engage with, or becoming abusive to, peers who are different from themselves
- Becoming susceptible to conspiracy theories and feelings of persecution
- Changes in friendship groups and appearance

- Rejecting activities, they used to enjoy
- Converting to a new religion
- Isolating themselves from family and friends
- Talking as if from a scripted speech
- An unwillingness or inability to discuss their views
- A sudden disrespectful attitude towards others
- Increased levels of anger
- Increased secretiveness, especially around internet use
- Expressions of sympathy for extremist ideologies and groups, or justification of their actions
- Accessing extremist material online, including on Facebook or Twitter
- Possessing extremist literature
- Being in contact with extremist recruiters and joining, or seeking to join, extremist organisations

Children who are at risk of radicalisation may have low self-esteem or be victims of bullying or discrimination. It is important to note that these signs can also be part of normal teenage behaviour – staff should have confidence in their instincts and seek advice if something feels wrong.

If staff are concerned about a student, they will follow our procedures set out in section 7.5 of this policy, including discussing their concerns with the DSL.

Staff should **always** act if they are worried.

Peer-on-peer abuse

Peer-on-peer abuse is when children abuse other children. This type of abuse can take place inside and outside of school and online.

Peer-on-peer abuse is most likely to include, but may not be limited to:

Bullying (including cyber-bullying, prejudice-based and discriminatory bullying)

Abuse in intimate personal relationships between peers

Physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm (this may include an online element which facilitates, threatens and/or encourages physical abuse)

Sexual violence, such as rape, assault by penetration and sexual assault (this may include an online element which facilitates, threatens and/or encourages sexual violence)

Sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment, which may be standalone or part of a broader pattern of abuse

Causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party

Consensual and non-consensual sharing of nudes and semi-nude images and/or videos (also known as sexting or youth produced sexual imagery)

Upskirting, which typically involves taking a picture under a person's clothing without their permission, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm

Initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group and may also include an online element)

Where children abuse their peers online, this can take the form of, for example, abusive, harassing, and misogynistic messages; the non-consensual sharing of indecent images, especially around chat groups; and the sharing of abusive images and pornography, to those who don't want to receive such content.

If staff have any concerns about peer-on-peer abuse, or a child makes a report to them, they will follow the procedures set out in section 7 of this policy, as appropriate. In particular, section 7.8 and 7.9 set out more detail about our school's approach to this type of abuse.

Sexual violence and sexual harassment between children in schools

Sexual violence and sexual harassment can occur:

Between 2 children of any age and sex

Through a group of children sexually assaulting or sexually harassing a single child or group of children

Online and face to face (both physically and verbally)

Sexual violence and sexual harassment exist on a continuum and may overlap.

Children who are victims of sexual violence and sexual harassment will likely find the experience stressful and distressing. This will, in all likelihood, adversely affect their educational attainment and will be exacerbated if the alleged perpetrator(s) attends the same school.

If a victim reports an incident, it is essential that staff make sure they are reassured that they are being taken seriously and that they will be supported and kept safe. A victim should never be given the impression that they are creating a problem by reporting sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report.

Some groups are potentially more at risk. Evidence shows that girls, children with SEND and/or disabilities, and lesbian, gay, bisexual and gender questioning (LGBT) children are at greater risk.

Staff should be aware of the importance of:

Challenging inappropriate behaviours

Making clear that sexual violence and sexual harassment is not acceptable, will never be tolerated and is not an inevitable part of growing up

Challenging physical behaviours (potentially criminal in nature), such as grabbing bottoms, breasts and genitalia, pulling down trousers, flicking bras and lifting skirts. Dismissing or tolerating such behaviours risks normalising them

If staff have any concerns about sexual violence or sexual harassment, or a child makes a report to them, they will follow the procedures set out in section 7 of this policy, as appropriate. In particular, section 7.8 and 7.9 set out more detail about our school's approach to this type of abuse.

Assessing adult-involved nude and semi-nude sharing incidents

All adult-involved nude and semi-nude image-sharing incidents are child sexual abuse offences and require an immediate referral to police or social care through the MASH or equivalent.

Serious violence

Indicators which may signal that a child is at risk from, or involved with, serious violent crime may include:

Increased absence from school

Change in friendships or relationships with older individuals or groups

Significant decline in performance

Signs of self-harm or a significant change in wellbeing

Signs of assault or unexplained injuries

Unexplained gifts or new possessions (this could indicate that the child has been approached by, or is involved with, individuals associated with criminal networks or gangs and may be at risk of criminal exploitation (see above))

Risk factors which increase the likelihood of involvement in serious violence include:

Being male

Having been frequently absent or permanently excluded from school

Having experienced child maltreatment

Having been involved in offending, such as theft or robbery

Staff will be aware of these indicators and risk factors. If a member of staff has a concern about a student being involved in, or at risk of, serious violence, they will report this to the DSL.

Checking the identity and suitability of visitors

All visitors will be required to verify their identity to the satisfaction of staff

Visitors are expected to sign in on the electrical system and wear a visitor's badge.

Visitors to the school who are visiting for a professional purpose, such as educational psychologists and school improvement officers, will be asked to show photo ID and:

- Will be asked to show their DBS certificate, which will be checked alongside their photo ID; or
- The organisation sending the professional, such as the LA or educational psychology service, will provide prior written confirmation that an appropriate level of DBS check has been carried out

All other visitors, including visiting speakers, will be accompanied by a member of staff at all times. We will not invite into the school any speaker who is known to disseminate extremist views and the staff member who wishes to incite this visit will carry out appropriate checks to ensure that any individual or organisation using school facilities is not seeking to disseminate extremist views or radicalise students or staff.

Missing students

Our procedures are designed to ensure that a missing child is found and returned to effective supervision as soon as possible. If a child goes missing, we will:

- Call 999 immediately and report that the child is vulnerable, and share information of all special needs
- Send staff immediately to look for the child
- Contact parent/carer immediately
