

FIRE RING IMPORTANT INFORMATION

www.coloradocylinderstoves.com

Colorado Cylinder Stoves TM thanks you for your recent purchase.

You can be assured that your product is 100% American Made!

The following recommendations should be executed to assure your safety, comfort and continued enjoyment.

Safety Recommendations

1. Fire rings contain sharp edges and sharp points, be careful when handling them.
2. Surfaces of the fire rings can be hot at any time.
3. Disassemble fire ring for storage only after it has completely cooled.

Assembly Instructions

Your package should include the following:

- Four fire ring sections
- Twelve 1/4" Phillips head bolts
- Twelve 1/4" washers
- Twelve 1/4" hex nuts

Assembly:

1. Layout all four sections into a circle
2. Lineup holes of each section of ring
3. Insert 1/4" bolt through each hole on the outside of the ring
4. Install flat washer and then 1/4" nut on inside of ring then tighten
