

SPIRIT OF DETERMINATION

For construction and trade

Vision

Spirit of Determination

is one of the leading Saudi companies in the field of construction and building, which works to utilize the latest and most effective technologies in all its work steps. The company has been able to prove itself as an important player in the domain of infrastructure development due to its quality and accuracy in carrying out work due to the disciplined policies it follows. The Spirit of Determination aspires to create a modern culture in the Saudi market that is compatible with international quality standards as it firmly proceeds in the path of creativity with determination in order to provide everything that is dazzling and consistent.

Mission

In order to reach and maintain leadership, the company relied on strategic plans supported by an insightful vision.

This vision is represented in providing competencies and securing a highly experienced technical, administrative and financial staff.

Hence, the process of recruiting our cadres only takes place according to a prior vision, and this vision is represented in attracting the competencies from which we were able to create
A highly professional and committed work environment
