

## Must Haves!

Are you looking for a way to improve both your athletes performance and safety? Because we have a great way to achieve both of these things with one product! We at [Howell To Sports](#) are a Manufacturers Rep. for the company [SPECTO®](#) who sell fencing with safety and convenience as their top priorities. Not only do they have great fencing, but they also have batting cages for indoors and outdoors. Take a look for yourself and see how safe and customizable these batting cages can be!

SPECTO Net Batting Cages from Grand Slam Safety, LLC bring batting cages to a new level. The cage's recessed netting system keeps balls from rebounding back toward the batting cage occupants allowing for greater safety of athlete and coaches while reducing the likelihood of injury.

These benefits and more—including the ability to customize and reconfigure on the fly—have made our batting cage nets for sale the premier batting practice solution throughout the

US and Asia.

Meanwhile, the tensioned bottom cable prevents balls from rolling under the netting as well as preventing athletes from tripping. Our net batting cages also boast recessed poles to allow for an exterior soft toss area. With SPECTO net bagging cages you no longer have to cancel batting practice due to unfavorable weather because our batting cage nets for sale work great inside, too!

All of our net batting cages also contain a “walk draw” center dividing net. This feature allows for one cage to become two separate cages for versatility that caters to your batting practice needs. All netting can be removed from the ground level and the entire cage can be deconstructed, moved, and stored easily and quickly.

Safety, customization to any size, accessories, and more make the SPECTO net batting cage system the best batting cage net for sale on the market for you and your players. For more information contact us online or over the phone, today.

---

**If you're not in the market for new batting cages, than maybe these two products sound more appealing!**

Does your console look this this? We can fix that! Sometimes all you need to save your old scoreboard is a new console! So please, [contact us](#) today!

## Brand new consoles!

## Wind screens!
