

Let Your Schools Video Board Speak For Itself!

Last week we showed you a great way to generate revenue for your athletic program. This week we would like to show you another way to generate not only revenue but pride in your program.

If you have ever considered video displays but thought they were out of your reach financially then please take a good look at this newsletter. Video displays can generate significant revenue for your program. They can also be used for other school functions such as graduations.

If you would like to find out more about how you can actually make money by spending money please give us a call. If you would like to sit down and discuss this opportunity, please e-mail Emily at emily@howelltosports.com and she will respond quickly. Or, please call or e-mail me at 856-381-8888 or ed@howelltosports.com.

Video Board at Slippery Rock University in PA

Electro-Mech is proud to partner with US-based sign manufacturer Vantage LED for our Video Display projects. Whether you're looking to add a marquee in front of your facility, include a full color message center with your scoreboard for advertising and animated graphics, or install a full color LED display for Live Video – Electro-Mech has you covered!

If you're really looking to make a statement nothing sets you apart from the crowd more than having a Live Video Display. By adding our Advanced Live Video System you can instantly switch between multiple feeds from live video cameras, DVD players, or a multitude of other sources.

With the video switcher/scaler control incorporated into our intuitive LightSpeed Live™ Event Software, changing between feeds is simply a click of the mouse. From the workstation in the press box, the person controlling the display will be able to instantly switch from a preselected schedule of sponsor graphics to a live feed, or from one of the live feeds the operator can quickly display an instant message/graphic like "TOUCHDOWN", "FIRST DOWN", "DEFENSE" etc. with a single click

While our Advanced Live Video package is a fully functioning system out of the box you, can easily incorporate an aftermarket Video Editing Studio system to add even more graphic effects like instant replay. Talk with you Sales Rep about what kind of options are available and what might be the best fit for your facility.

A Live Video Display not only adds another level of excitement to your games, but can also be used to enhance non-sporting events as well.
