

Scoreboards & Live Events

From the perfectly manicured turf of the High School Football Stadium to the glistening hardwoods of the Basketball Gymnasium floor, families, coaches, players, and students share the drama, excitement, and the achievement athletic events deliver.

Whether in the rural outskirts of Montgomery, AL, the suburbs of Dallas, TX, or in downtown Atlanta, GA, reveal the pride, the passion, and the support of national sponsors and community advertisers with a dynamic & interactive video scoreboard.

But we know it's more than just a scoreboard.
This Is Family. This Is Home.

Rally Your Fans & Generate Revenue:

- Intuitive, powerful, and student-friendly software developed by our in-house software team.

We design everything from the ground up.
 What solution does your family need?

"My grandmother believes in me so much. She donated money to specifically help our school get instant replay on our new scoreboard. During our final game of the year, she got to see me kick a field goal which played on our scoreboard over & over again. I'll never forget that moment."

LightSpeed LIVE™ Event Software brings any venue to life by commanding live video, advertisements, and instant action content to your video display with a simple and open interface with exclusive features like:

ACTION ON THE DISPLAY... Establish different layouts (or zones) to display the desired content, like live camera action and advertisements at the same time. Simply plug in a Blu-ray/DVD player to display videos, movies, or advertisements.

INTEGRATED SCALER CONTROLS... (a separate component that scales input from cameras, video players, etc to fit on your display). All interactive buttons for the Scaler have been implemented into the software, which allows accurate and quicker control; the user only needs to point and click on the computer screen.

REVENUE GENERATING ADVERTISEMENTS... The Sign Scheduler allows the customer to create a playlist of advertisements that can be scheduled for Pre-Game, During the Game, and Post Game.

INSTANT ACTION WITH HOT BUTTONS... Hot Buttons on the screen shows recognizable thumbnails of all quick action content, like "TOUCHDOWN!" or "ITS GOOD!", which are easily initiated with one click. It interrupts the current schedule, but once completed, **the schedule resumes in the same spot** instead of going back to the top of the playlist which results in missed advertisements.
