If you are looking for a loan for your home / or you are in search of financing for your new business, you will find this website quite useful. In India when it comes to a loan, there are a number of providers for Salary loans, Home loan or any other types of finances. So, deciding your lender is an important step before taking a loan.

Lenders vary in the nature of their business. So, it is advisable to do a thorough research about different loan options and different lenders, repayment period, rate of interest etc.

Generally interest rates can be fixed or floating in type. A fixed interest rate by the name it suggests does not change during the loan tenure. A floating interest rate on the other hand is the rate updated by the lender due to market trends. A floating interest rate can go up or down depending on the financial trend. Some lenders are you use also providing the option to take the loan which is split between fixed and floating interest rates.
