MAP 360 INSTALLING V3 UPGRADE for software with USB License Keys

Note: You must have current maintenance subscription to be able to install upgrades. Contact us at 1-888-632-8285 if you are not sure.

You must UPDATE your USB License Key first to install updates:

By opening_Map360 to a new or existing project. At top right ribbon click "About IMS Map360" and from drop down list select "License Manager"

1.) Click on "**Update Key with New Information**" button at bottom of the Software License USB key Maintenance dialog box.

2.) Should now display message in dialog "**Key Successfully updated**". Click **Exit**. This message may pop up that Version 3 is available for download, if not go to next step:

License	Key Version Check	\times
	Version 3.0.3 is available for download. Your current key is licensed only to version 2.02.00 and cannot run the new version until it is updated. Please use the License Manager application to update your key. A current maintenance subscription plan is required to update	
	your key. To renew your maintenance subscription plan b required to update MicroSurvey Software at 1-800-668-3312 or visit the MicroSurvey Store at http://store.microsurveysales.com	
	Note: If you would like to stop notification please change your Auto Update Preferences under the Help Menu.	
	ОК	

- 3.) Shut down Map360 and **restart** program to apply change to USB key.
- 4.) **Open** Map360 again to new blank project. At top right ribbon and click "**About IMS Map360**" and from dropdown select **Check for Updates** for program:

5.) This dialog will appear, but you may need to close or minimize Map360 to see it and may be in the background:

6.) Click on: Download and install now :

- 8.) When done you may need to restart your computer.
- 9.) Check to agree to License terms, click Next and then accept defaults and click Install:

- > Setup Wizard may take a few moments. When done click Finish.
- 10.) If you open program may see a message to initially run as the administrator.

11.) On your Desktop find Map360 v3 new icon that was created. RIGHT CLICK on new icon and from pop up dialog select "RUN as administrator"

	Open
	Open file location
	Pin to Start menu (Classic Shell)
•	Run as administrator
	Troubleshoot compatibility
	Pin to Start
	Pin to taskbar
	Restore previous versions
	Send to $>$
	Cut
	Сору
	Create shortcut
	Delete
	Rename
	Properties

(An **Analytics program** to provide future input option pops up. This is voluntary and you do not have to participate unless you wish to.)

12.) NOW your new Map360 v3 can be used! Note on your desktop you will still have icon from v2 short cut which you can now delete and just keep new v3 to avoid confusion:
