

# A SERIES

# A6

The A6 is the new vending machine for **frozen products** with Magex patented dispensing system without spirals which allows to sell different kinds of products: packaged ice creams, gelato boxes, frozen prepared dishes and other frozen food. A6 is perfect for shopping malls, shops, offices, as well as for outdoor installations. Thanks to its particular insulation and thermal barrier, The A6 constantly maintains the temperature of **-25°C** even during the hottest summer periods. The touch screen displays all the product details and descriptions with pictures and videos. The software User interface is multi-lingual and very user friendly.

## A6 DELIVERY

A6 vending machine's delivery door is on the console side, the product is delivered with a robotic system which takes it from at the floor level and brings it to the delivery area with lateral movement; a light will flash once the delivery is completed and the customer can withdraw the product. Due to its position at 85cm from the ground it makes the collection easier for people with disabilities or limited mobility. A thermal barrier separates the stock with the frozen products from the payment and delivery console.

## MAGEX DISPENSING SYSTEM

Magex's patented dispensing system provides the maximum flexibility to dispense any kind of product, adapting the space to it.

The system allows to insert separators between the products; the machine has a self-testing system to verify the functioning of every lane before dispensing the product.

## A6 SPECS

**Width : 41.2"/1048 mm**

**Depth : 31"/795 mm**

**Height : 78.5"/1995 mm**

**Weight (with 6 floors) : 330 kg**

**Maximum number of floors : 8**

**Maximum number of lanes : 6**

**Maximum facings per floor : 6**

**Lighting type : High luminosity LED (25W)**

**Power Supply : 240/50 Hz | 110V/60 Hz**

**Indoor temperature : -25° C**

**Energy consumption : 900 W  
(with cooling unit on)**

## TECHNICAL SPECIFICATIONS

- Reinforced retrieval area
- Shatter proof resistant glass
- Console with independent opening
- Frame reinforced with steel
- 10" HD Monitor
- Dual core industrial computer
- Operating system installed with 32GB SSD
- Isolated door window
- LED lighting
- Modular shelf configuration
- Armored locks of the console
- Self-diagnostic system
- Electronic multi-control
- Data and statistics management
- Elevator lift for collection and delivery of the products

## OPTIONS

- Cashless/Credit/Debit Reader
- Cash: Note & Coin Reader and/or recycler
- Camera kit
- Graphic customization
- RFID loyalty card system
- Mobile App
- Cooling unit with digital temperature control
- Insulation for refrigeration
- More custom features available

## REAL TIME DATA SERVICE

Magex provides a cloud service to see all the vending machines data in real time, from laptop and mobile. With the data website is possible to see in real time the sales data, the stock status, coins and banknotes inserted, reboots and functioning, attempted break-in, internal temperature of the machine and evaporator are all visible from the display with charts.
