## WHY WORK WITH US

Taurus Civil Construction committed to delivering excellence in civil construction.

Our team has been together for many years and has developed an excellent working relationship with each other. We enjoy challenging projects creating new ideas that will help our project get completed on time and within not just our clients' standards but our own which are set high above the rest.

At Taurus Civil Construction we have proven to deliver complex solutions efficiently and effectively!

## SAFETY & WELLBEING

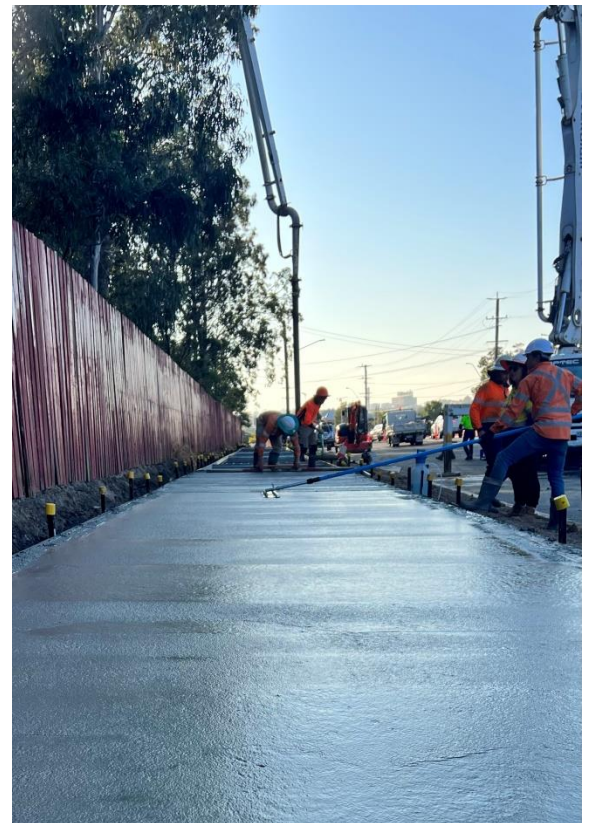

Taurus Civil Construction has a strong commitment to ensuring we provide a healthy and safe work environment to our employees and to others affected by our operations. We work to a minimum industry health and safety Australian standard with regular reviews of our own JSA's, SWMS

## QUALITY

Taurus Civil Construction consistently goes above and beyond to deliver a quality service that meets the needs of our clients. We understand that our reputation is very important, and we take pride in delivering a high-quality service with a highly professional touch. It has always been our commitment to building the highest performing concrete structures. We see this as the way in order for us to grow to our own expectations. We assess all products and services to ensure conformance to the requirements of each project's specifications, drawings and relevant standards.

## SUSTAINABILITY

Prioritising protection of the environment and reduction of our footprint in every possible aspect during our work.

# FORMWORK STEEL FIXING & CONCRETE

- Driven by Excellence
- The Client is Our Focus
- Safety of Our Staff is Our Priority
- Our People are Our Strength
- Open & Honest in Our Business

## FORMWORK

We are experienced in conventional and proprietary formwork systems, as well as in a range of concrete structures including bridges, capping beams, slabs (suspended and on ground), various drainage structures, and retaining walls.

## STEEL FIXING

We can cater for all your reinforcement, supply, and placement needs, along with the ability to prefabricate off-site and deliver or fix in-situ. Our experienced steel fixers are always available to assist in scheduling process and checking of deliveries to minimise any downtime or inefficiencies.

## CONCRETE

We are highly experienced in all types of concrete work ranging from foot paths to large scale complex structures ensuring highest standard outcome is met.
