Design & Construction

Your **DREAM**, We **Build**

Company Profile

About Us

CUBE Design & Construction is a forward thinking company specializing in delivering innovative architectural design and high quality construction solutions. We combine creativity, technology, and precision engineering to turn visions into reality.

Our team of architects, engineers, and builders work together to create sustainable, functional, and aesthetically striking projects that stand the test of time.

Our History

Since its inception, **CUBE Design & Construction** has grown from a small design studio into a trusted, full-service design and construction company recognized for innovation, quality, and reliability.

■ 2009 – Foundation

Established as a small architectural design studio with a vision to bring creativity and precision into modern design and construction.

■ 2012 – First Major Project

Completed our first large-scale residential project, earning recognition for quality craftsmanship and innovative design solutions.

■ 2015 – Expansion into Construction

Transitioned from purely design services to full design-build capabilities, offering end-to-end construction solutions.

■ 2021 – Sustainable Practices

Adopted eco-friendly design and construction methods, integrating sustainability into all projects.

■ 2025 – Today

CUBE Design & Construction stands as a leading company in the region, combining visionary design, quality execution, and sustainable practices to build the future.

OUR SERVICE

At CUBE Design & Construction, we deliver a comprehensive suite of services from initial concept to final build, ensuring each project is beautifully designed, expertly managed, and impeccably executed.

Our key offerings include:

Architectural Design

We create customized designs for residential, commercial, and institutional spaces. Our services include site selection, zoning analysis, building plans, and conceptual renders tailored to your vision.

Interior Design

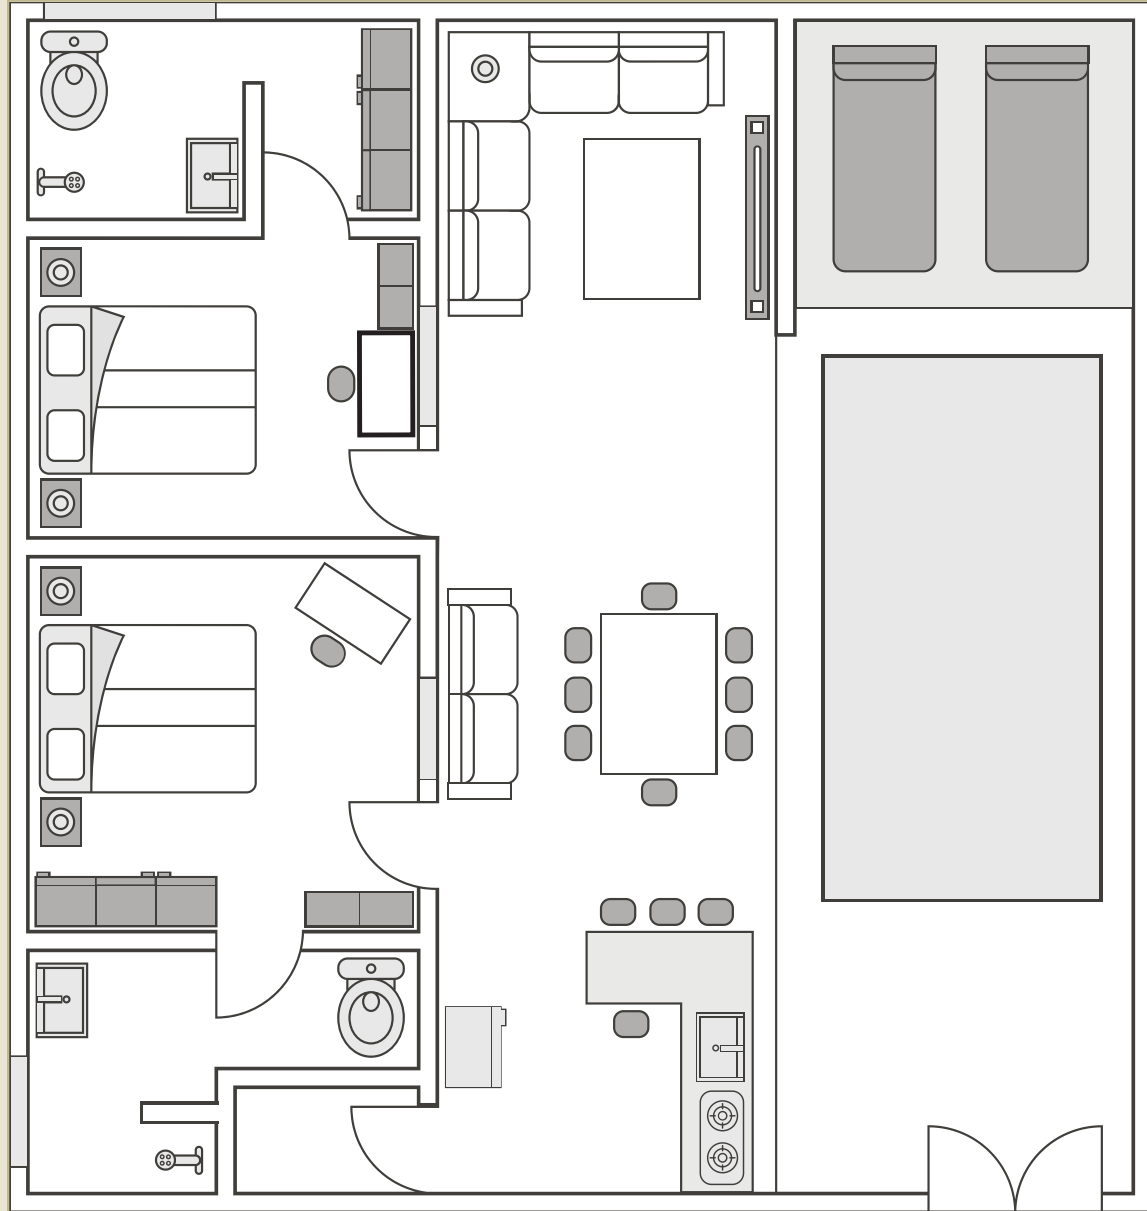

Our talented team brings creativity and practicality together. From sleek modern interiors to cozy, functional layouts, we design with your lifestyle and brand identity in mind.

Project Management & Construction Services

Delivering turnkey solutions, we oversee every stage from feasibility studies and cost planning to procurement, scheduling, contractor coordination, and final delivery.

Full-Spectrum Design-Build Services

Our integrated approach seamlessly connects design and construction under one roof, minimizing delays and maximizing alignment between vision and reality.

Construction & Materials

Section	Material Used
Foundation	Reinforced concrete
Walls	High-quality lightweight bricks with weather-resistant paint
Roof	Concrete tiles with steel frame
Flooring	Ceramic tiles 40x40 cm
Doors & Windows	Solid wood doors, aluminum-framed windows with clear glass
Ceiling	Gypsum board with metal frame
Sanitary Fittings	Standard-grade ceramic toilet and washbasin

Quality Assurance

At CUBE Design & Construction, excellence is not just a goal — it is a standard we uphold in every project. Our quality assurance process is built on meticulous planning, careful material selection, and rigorous supervision at every stage of construction.

Excellence through Quality Assurance

We implement international best practices, monitor progress closely, and conduct continuous inspections to ensure that each detail meets the highest standards of durability, safety, and aesthetics. By combining precision with accountability, we deliver projects that consistently exceed client expectations and stand the test of time.
