

STOP Mosquito

CASE STUDY

Challenge

Mdm Lee, a mother of three, stays in a landed estate with several of her neighbours contracting Dengue. She has previously installed mosquito screens on her windows but did not do so for her patio sliding doors, due mainly to aesthetic reasons & also the seemingly high costs that she was quoted. The proposed current sliding/retractable screen solutions require significant maintenance and do not allow entry or exit by her dog.

Mdm Lee's Sliding Door

Customer's Goals

- Prevent mosquitoes entering from her patio.
- Be aesthetically pleasing. I.e. Allows for high wind & light flow. Also that her helper can remove or install the screens easily for house parties.
- Be reasonably priced and low maintenance.
- Her dog can enter or exit freely.

How STOP Mosquito helped?

We carried out an on-site survey for Mdm Lee and found our screen to be suitable for her extra large customised sliding doors that can also open outwards.

We made measurements of her sliding doors and custom made a **STOP Mosquito** Screen for exact fitment onto her sliding doors, without requiring modifications or additional track.

We installed our screen and shared with Mdm Lee and her helper the steps to install and remove the screen. They understood the simple steps and her helper tried once successfully.

Results

Two weeks later, we followed up with Mdm Lee for her feedback:

- *"Indeed, hardly any mosquitoes in the house anymore"*
- *"Don't notice the screen much. But will still remove when I have big parties at home."*
- *"Don't think screen requires maintenance"*
- *"Dog took a few days but learned to walk via the centre now"*
- *"Not as expensive as I have been quoted by other providers"*

STOP Mosquito Team

"Our mission is to Stop Mosquitoes from Biting Our Loved Ones. Mdm Lee allowed us to present our solution and, like many of our other customers, is able to see the attributes of our product immediately. We are grateful to Mdm Lee for recognizing the importance of protecting her family by allowing a new affordable solution to be presented to her. Mdm Lee has since introduced us to her friends and family. Thank you Mdm Lee and all our customers for helping us achieve our mission for new families every day!"
