The Trust works to improve the quality of care provided to mothers and babies through the Voluntary Certification Program, perinatal education and ongoing evaluation of the Arizona's regionalized perinatal system. Thanks to the support of the hundreds of Volunteers, Certified Hospitals, as well as our partnering agencies and organizations, the Arizona Perinatal Trust has celebrated 37-years of working to improve the health of Arizona's mothers and babies.

VOLUNTARY CERTIFICATION PROGRAM

APT partners with hospitals in Arizona's to provide a system of perinatal/neonatal regionalized levels of care, through the Voluntary Certification Program (VCP). The VCP process is a quality improvement effort that includes matching hospital capabilities and capacity to established guidelines. This is accomplished through a self-assessment process and a Site Visit by a team of peer professionals.

- ◆ 39 Perinatal Care Centers & 1 Neonatal Care Center certified
- ◆ 17 Site Visits completed
- ◆ 36 Volunteer Site Visit Reviewers
- ◆ 779 Volunteer hours (Total of 6,927 since 2008)

2017 Perinatal Data showed the following*:

- ◆ 94.3% of all in-hospital Arizona births occurred in APT Certified Hospitals
- ◆ 91.2% of all low birth weight babies were born in a Level II or higher Hospital
- ◆ 89.4% of all very low birth weight babies were born in a Level II-E or higher Hospital, much exceeding the Healthy People 2020 goal of 83.7%
- ◆ There were 498 maternal transports and 396 neonatal transports sent

*=ADHS Vital Records Data

As part of the VCP Site visit, a Site Visit Evaluation is conducted. Of the 17 Site Visits completed in 2017, 100% of the facilities felt that the Hospital objectives were met through the Site Visit Process. Site Visit Reviewers were also evaluated in three areas; Questions, Knowledge and Behavior.

2017 Site Visit Evaluation Results
