

# Looking after your embroidered clothing

**PROPER CARE HELPS YOUR BRANDED CLOTHING LOOK SHARP AND LAST LONGER. HERE ARE SOME QUICK TIPS TO KEEP YOUR EMBROIDERY AND GARMENTS IN TOP CONDITION:**

## **WASH WITH CARE**

- Turn clothing inside out before washing to protect the embroidery
- Use a mild detergent and wash at 30°C
- Avoid bleach or harsh chemicals—they can damage both fabric and thread
- Avoid washing with any velcro items as this can snag on the embroidery

## **DRY GENTLY**

- Air dry when possible, or use a low heat setting in the tumble dryer (check label)
- Avoid wringing out clothing, especially on embroidered areas

## **GENERAL WEAR & TEAR**

- Regularly inspect for loose threads—never pull them, trim gently instead
- Store garments in a clean, dry place when not in use

## **IRONING TIPS**

- Turn clothing inside out and avoid direct contact between the hot iron and embroidery
- If ironing on the outside, use a cloth between the iron and the stitching

***TAKING THESE SIMPLE STEPS  
WILL HELP KEEP YOUR  
EMBROIDERED CLOTHING  
LOOKING THEIR VERY BEST!***
