SHIELD 365

Typically behavioral health providers are rushed into buying insurance 90 days before the renewal.

You're not typical.

Go beyond insurance with a process that delivers better coverage and could save you money.

Rather than selling insurance policies, Shield365™ is centered around finding and managing risk for nonprofits. It all starts with a diagnostic risk management assessment. Our Risk Profile Improvement (RPI) process allows time to assess your needs, look for ways to manage risk and provide you with customized solutions.

**INSURANCE ALONE
IS NEVER ENOUGH**
