### **The Science of Mind: A Spiritual Philosophy for Today**

In my mind, in my way, I mindfully recognize God as all there is. The mighty moving Power is back of all, resides within all and expresses through all. This means me!

Divine Love, Perfect Peace, Infinite Intelligence, and all the ways of God animate my life. With confidence I accept and embody an ever-increasing awareness of the Spiritual Truth of my being and my life.

I find perfect ways to express my gratitude for this Truth knowing these are the ways God expresses through me. I give thanks for the many ways of God in my life. And so it is.
