***Connections – The Lives We Touch***

One Life includes all and excludes none. One Source equally available to all expresses through all. One Power distributed in perfect timing, and right action moves through me now.

I originated in and am sustained by a Beloved Presence whose love is unending. I affirm that my connection with the Beloved Presence is perfect, whole, and complete. I own my power and know I make a difference. I honor it and serve others from the place of connection with the Power and Presence within all life.

I am grateful for the ways Spirit moves through me into meaningful expression. I give thanks that it is so. And so it is.
