

Our Community Prayer for September
Accepting the Blessing and Paying It Forward

Mindfully, in my own way, I recognize the Presence of God, Divine Love in me and all around me.

It is the Creative Power of all life and therefore the creative inspiration in me. I acknowledge and affirm that It is revealing itself to me perfectly so that I may know It, experience It, and be aligned with It.

This recognition and awareness guide me as I express that indwelling essence in all that I am part of. In appreciation, I joyfully express more and more of my Self, confident in Its Presence and engaged in the activity of Its Love.

I release this Word of Truth to the Law of Good and let it be. And so it is.
