Spruce
WITH SPINNING BRUSH

SIMPLICITY *Specialty* VACUUMS

Whether you're rooting out crumbs from your keyboard or cleaning up a houseplant your dog turned into chopped salad, there's a vac for that! Simplicity has created a specialty vacuum for every special mess, and all the attachments to clean up wherever dirt tries to hide.

Spruce Hand Vacuum With Spinning Brush

The Spruce's powerful suction and sturdy brushroll work together to remove dirt and debris completely, whether it's settled into the carpet or sprawled out on the overstuffed couch.

With a flexible stretch hose, Spruce cajoles messes to come out, wherever they are. Its soft, natural-bristle dusting brush is perfect for ding-able surfaces like wood furniture and movable fixtures, while the narrow crevice tool gets the debris that falls into the nooks and crannies of any room.

A bright LED headlight illuminates all the Spruce's dark adventures.
