3D
HOLOGRAM
SOLUTIONS

An engaging experience to give the best snapshots and walkthrough of places, objects and even people. IoT enabled.

Proud innovative solutions in India

IMMERSIVE, INTERACTIVE, INNOVATIVE

Using the science of bending of light rays and combining the 3D technologies to create holographic experiences.

Use Cases:

- **Real Estate Campus Views**
- **LiDAR scans and intelligent solutions**
- **Smart City - Urban Planning & Strategy**
- **Aerospace - Flight path simulation**
- **Museums - Immersive Paintings & Artefacts**
- **Advertising & Product Marketing**
- **Gaming & Entertainment**
- **Training & Education**
- **3D Hologram Tours**
- **Product Design and Engineering**
- **Digital Twins**

Why Choose This:

- **Customized Solutions**
- **IoT Enabled - Real Time**
- **AI Enabled**
- **Best for Immersive Walkthrough**
- **Interactive, Programmable Solutions**
- **Multi-Variant Projection Options**
- **Flexible size options**

- Standard Display Size - 3m * 2m
- Ideal # of Viewers - 1 to 4
- Typical Hologram Projection - ~1m
