*Institutional Review Board (IRB)*

---

Application Number: 2023-095

Application Title: Issues for Infant and Toddler Feeding at Disaster Mass Care Sites

12/01/2023

Dear Michael Prasad,

The APUS IRB has reviewed and approved the above application as Exempt from further review.

Date of IRB approval: 12/01/2023

Date of IRB approval expiration: 11/30/2028

The approval is valid for five calendar years from the date of approval. Should your research using human subjects extend beyond the time covered by this approval, you will need to submit an *extension request form* to the IRB.

Changes in the research design (e.g., recruitment process, advertisements) or informed consent process must be approved by the IRB before they are implemented. If the revised research design is no longer Exempt, then the IRB committee will need to review the application and issue a new approval.

It is the responsibility of the investigators to report to the IRB any serious, unexpected, and related adverse events and potential unanticipated problems related to risks to subjects and others using the *unanticipated problems notification*.

Please direct any question to [apus-irb@apus.edu](mailto:apus-irb@apus.edu). The forms mentioned above are available at <http://www.apus.edu/community-scholars/institutional-review-board/apply.htm>.

Sincerely,

Jennifer Douglas, PhD  
IRB Chair
