Spring Lake Homeowners

PLM Lake and Land Management Corp will be on Spring Lake **Friday August 19**, to treat an additional 5.06 acres Eurasian Water Milfoil.

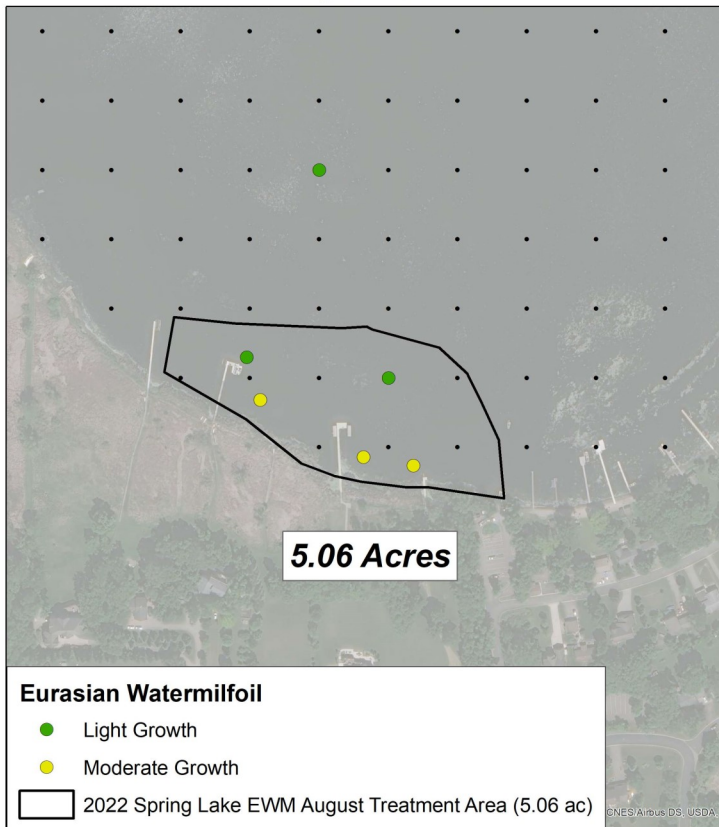

Blue Water Science was on Spring Lake on **Tuesday August 2, 2022** conducting a follow up survey post treatment for Eurasian Water Milfoil (EWM). The treatment was done on June 17 at which time 14.05 acres was completed. Treated areas for EWM were successful.

Another area adjacent and to the left of the boat launch was found to have a light infestation at the earlier survey but has now grown show more moderate growth. The decision was made to go ahead and treat this area. In discussions with Steve McCommas, the circled area is considered a bed (multiple patches together moderate or heavy) and was the reason for treating. A single green dot is considered a patch.

**Treatment Date | Friday August 19, 2022**

- **Total** | 5.06 Acres
- **Cost** | Treatment is estimated to be \$5500 The costs for the treatment will be covered by the DNR grant.
