Love the guy and what he does, what he makes is beautiful and great quality, one of my go to bullion dealers, but these 1/2 ounce silver coins are just stunning!

in all honesty... It came as expected, it's beautiful! I can tell Pure Alchemy Mint put his heart and soul into what he produces... Bought some silver recently from him, waiting on it though but from the last couple of pieces I bought it, it'll be quick to get here. I can't wait to see what more copper or silver pieces he makes in the future..

I've been stacking silver for a little bit, just recently started stacking copper to diversify what I already have. Yeah, copper isn't like gold or silver, but yet, it's in every electronics, so I see it's value. But you make really beautiful products, and I'll be buying more, and someday I'll be buying your silver... Keep it up!

2nd Copper purchase from this seller. Excellent price. Item is as described, even better than the pictures, shipping is fast, and packaging is excellent. I highly recommend this seller, and I will buy from them again.
