

DRY & LIQUID TECHNICAL TEXTILES

Fair prices, outstanding quality,
experienced sales & support,
local stock

ABOUT US

We are a young company in the south of Bavaria and offer our customers a full range of products for the dry and liquid separation.

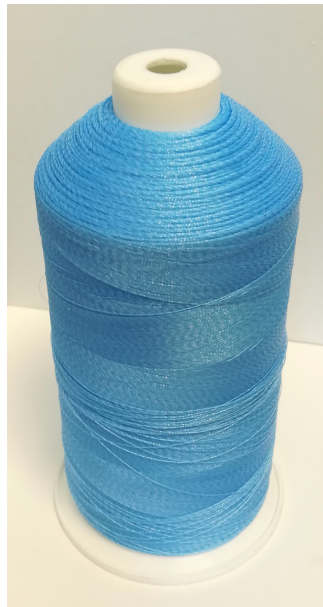

Our team is ready to identify your technical requirements and to provide the optimal supply for your specific filter project. We only choose high quality goods from our selected OEM's, crafted in the highest technical European market standard.

Our main product groups cover all essential demands for the professional filter medias manufacturer.

PTFE SEWING THREAD

ST-EF 1350 3a

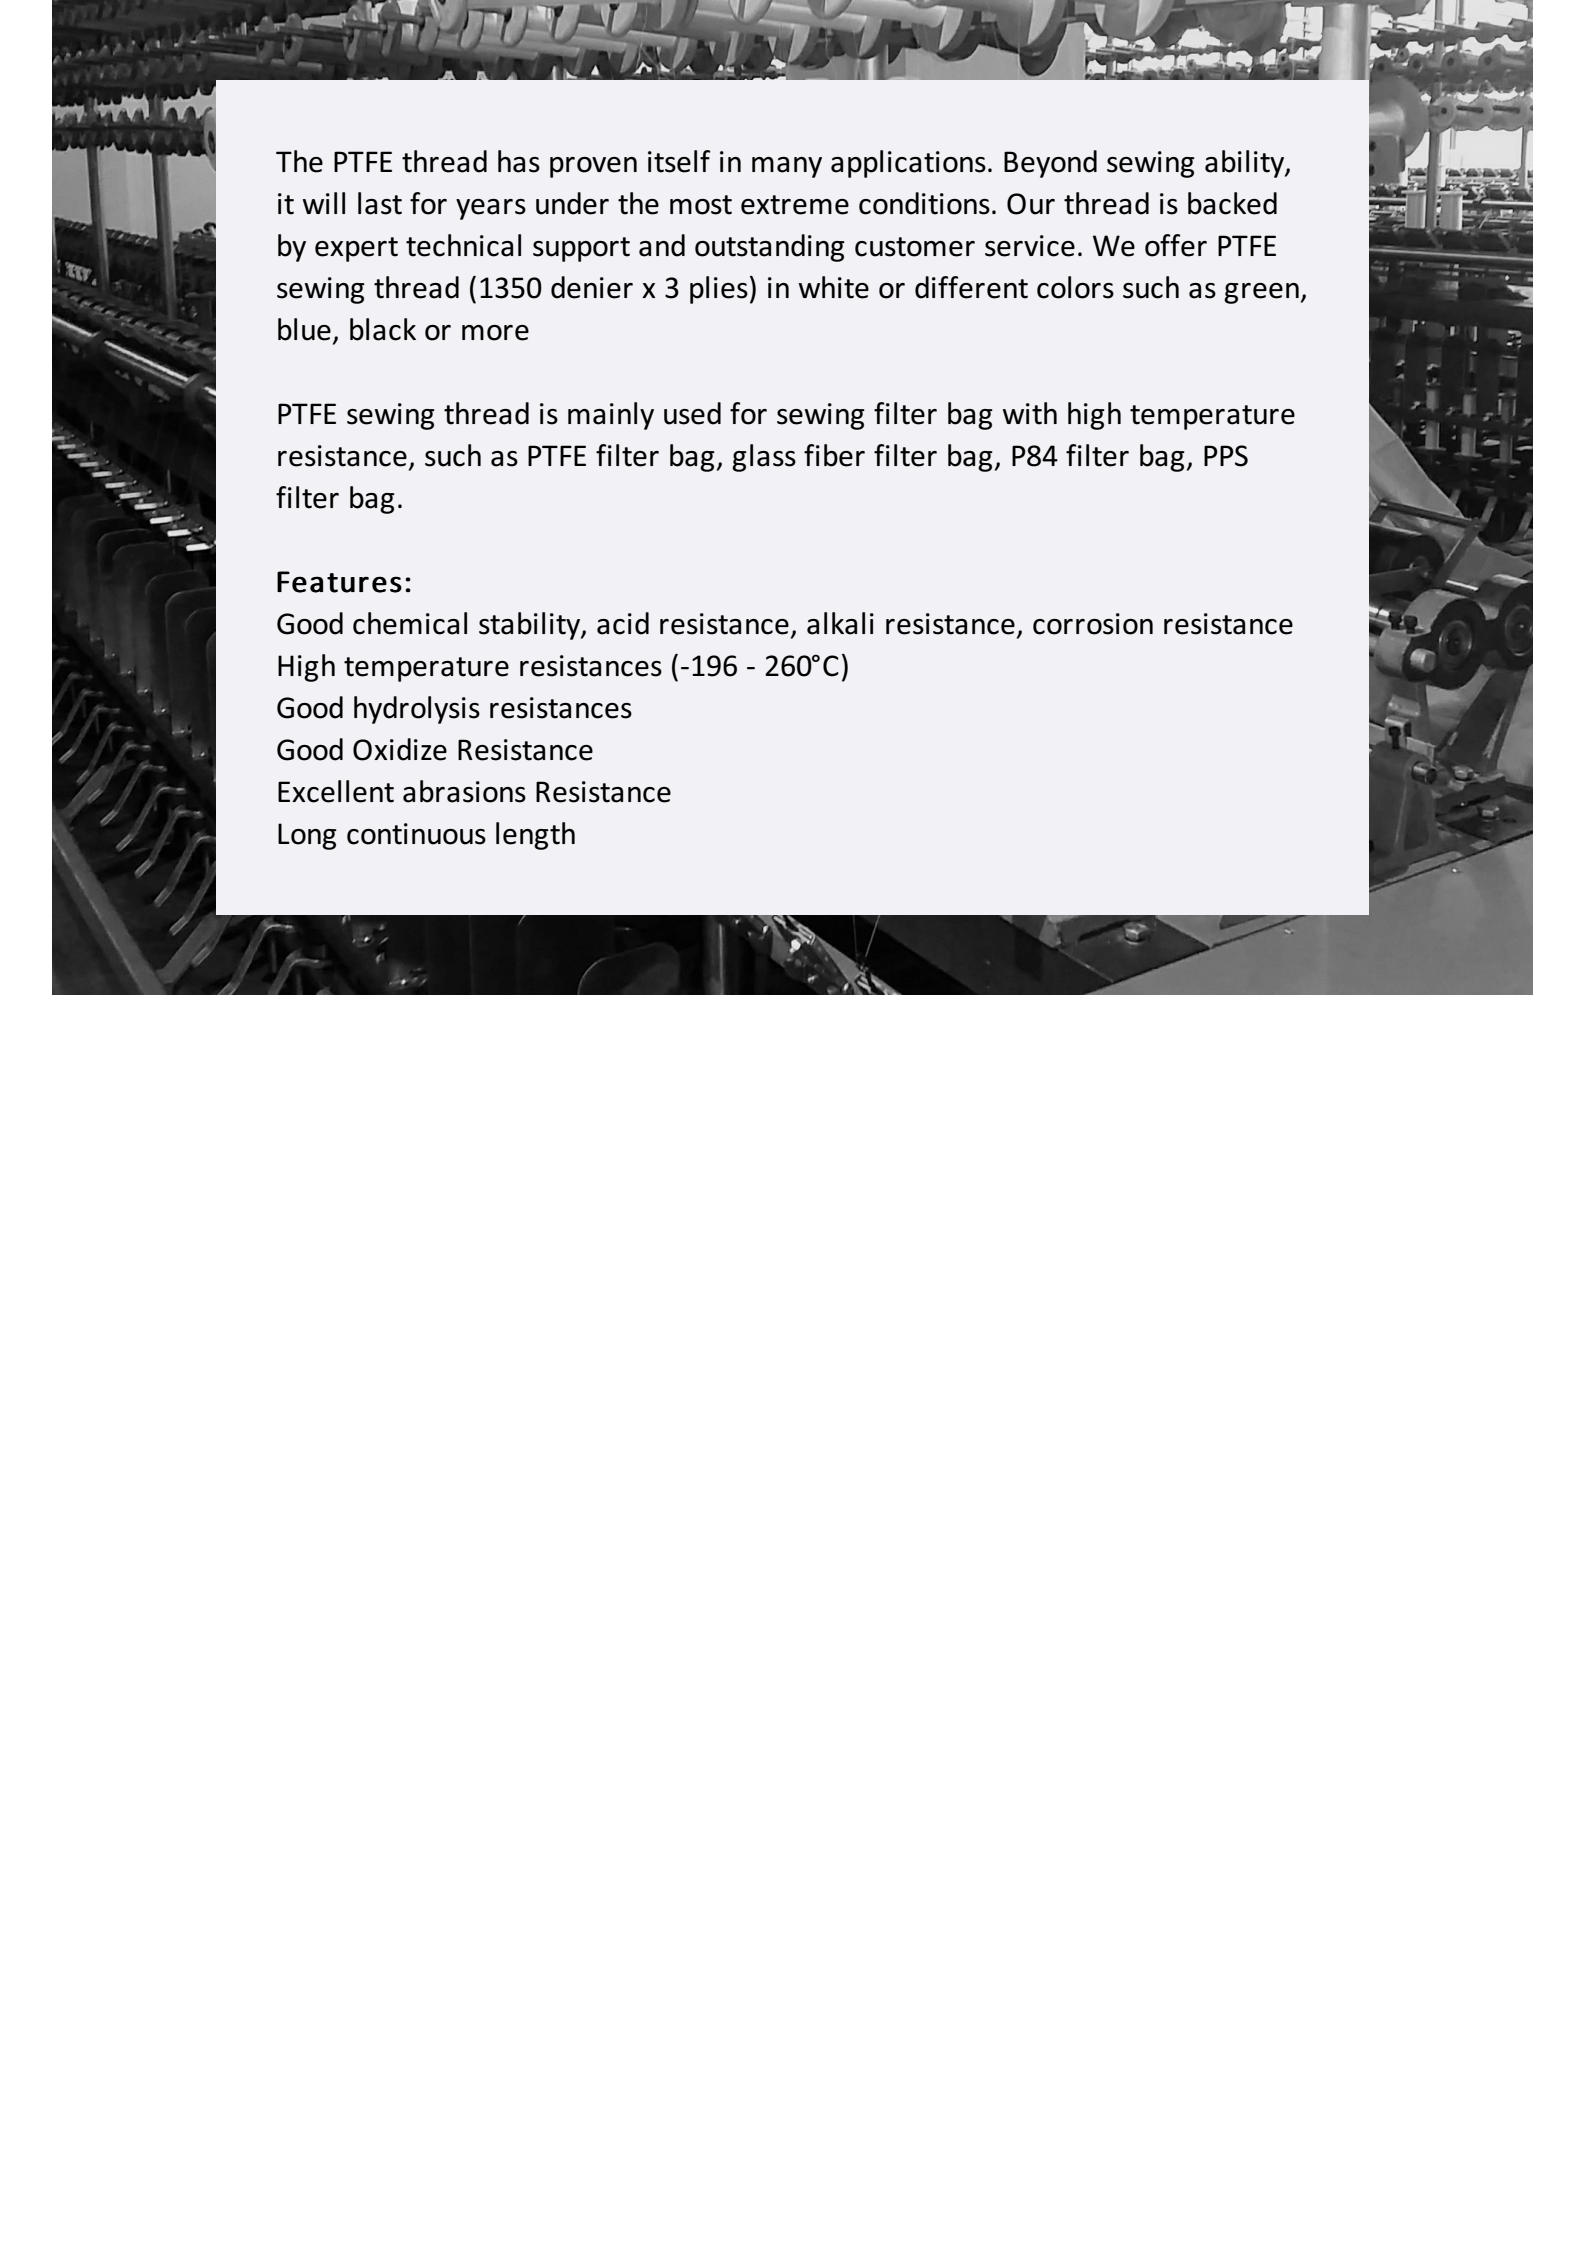

CST-EF M1350 3a
Blue

CST-EF M1350 3a
Green

PTFE 3000D Black

The PTFE thread has proven itself in many applications. Beyond sewing ability, it will last for years under the most extreme conditions. Our thread is backed by expert technical support and outstanding customer service. We offer PTFE sewing thread (1350 denier x 3 plies) in white or different colors such as green, blue, black or more

PTFE sewing thread is mainly used for sewing filter bag with high temperature resistance, such as PTFE filter bag, glass fiber filter bag, P84 filter bag, PPS filter bag.

Features:

Good chemical stability, acid resistance, alkali resistance, corrosion resistance

High temperature resistances (-196 - 260°C)

Good hydrolysis resistances

Good Oxidize Resistance

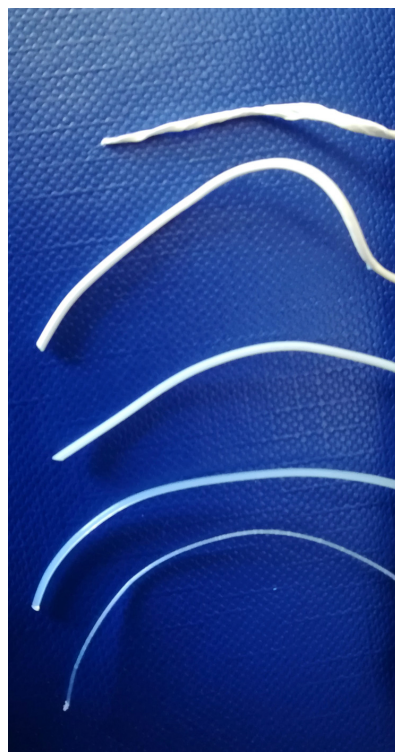

Excellent abrasions Resistance

Long continuous length
