

Season Greetings 20/21

2020 was a year full of challenges that demanded the best of us. As the holiday season approaches, we all have a good opportunity to fill ourselves with the best hopes and wishes for the upcoming year. We're glad for having your trust, and hope to be able to support your projects in 2021.

We wish you and your family a healthy, successful and happy new year,

Your team from DLTT

PRODUCTS

- **NON-WOVEN NEEDLE FELTS**

Filter materials for higher standard and environment friendly results. DLTT mainly provides felts in the following synthetic fibers: Polyester, PTFE, PP, PPS, Aramid, Acryl, Fiberglass. Each of them provide excellent technical properties in the final result.

- **SYNTHETIC MESH**

Monofilament synthetic meshes (polyester, polyamide (nylon) and polypropylene) with versatile precision in meeting the strict technical requirements that prevails in business like the automotive, chemical, biomedical, food processing and many other industries.

- **STAINLESS STEEL MESH**

Excellent resistance against acid, alkali, heat and corrosion, stainless steel wire finds extensive use in processing of oils, chemicals, food, pharmaceuticals, as sorting and screening of solid, liquid and gas in mine, metallurgy, aerospace, machine making and others.

- **SEWING YARN**

Engineered to deliver performance in stitches and seams, this kind of thread may fit a wide range of business due to its heat, corrosion and oxidation resistance, high tear resistance and the long length without knots. Generally, filter bags are manufactured with sewing yarn made from PTFE, Acryl, Aramid, Polyester, Polypropylene, Polyethylene.

- **CLOTH**

DLTT provides a wide range of industrial filter cloths that, due to its variety of composition, can meet all sorts of customer needs. These woven fabrics are used for nearly all kinds of industrial segments, such as solid-liquid separation, dust collection, food and beverage, pharmaceutical, chemical industry, non-ferrous metallurgy, sugar-refinery and many others.

- **FILTER CARTRIDGES**

Our Cartridges fit to your projects in various areas of applications across industries like metal working, laser and plasma cutting, grinding, sandblasting, welding fume, graphite, pharmaceuticals, chemicals, wood, paper, coal, cement and many others.
