

Global Employer Directory

In Pursuit of MY Calling.

Step into your Future.

Global Employer Directory is an Interactive Digital Publication linking the Job Seeker to the Employer, to enable the Job Seeker to learn about the Employer, the business and the Job Postings they have available.

First, every employer is included in Hiring This Week and the Global Employer Directory. Every business has a basic Employer Profile in Hiring This Week Global Job and Career search Portal. In addition every employer has a Standard (Logo) listing in the Global Employer Directory of local Employers providing one-click access to the Employers Profile in Hiring This Week. Employer Profiles are indexed by Employer Name and Business category.

Members and Subscribers receive a larger (Business Card size Logo) image listing.

Profiles are available in two types, Basic and Interactive. The Basic Profile is much like the About Us section of your business website (think

of it as Who, What, When and Where).

An Interactive Profile provides the Job Seeker with complete access to interact with your Business (the addition of the How and Why). Content may be linked to and provide all of the information the Job Seeker needs to assess the opportunity, as audio, video, text or graphic content, business website, career site, or third party human resource management or custom landing page. The Job Seeker also has one-click options to call, text and email designated personnel.
