

MYSTICISM Prevents ROMANTIC LOVE

Romantic Love is a major Value and major source of practical achievements, personal growth, efficient living, happiness, joy, and pleasure . . .

Yet, romantic love is often dismissed as blind, irrational, and dismissive because **Mysticism—**

- Blocks Integrated Thinking
- Brings stupidities through mind-created realities
- Promotes irrationality and inability to see illusion of the romantic love construct created by the Mystics to deceive and enslave man
- Promotes dishonest communication, out of context assertions or attacks, jumbled or non-integrated thinking—all leading to mind created realities
- Is epistemological disease that progressively undermines one's capacity to think, to identify reality, to live competently, and function from the inner HeartMind
- Prevents *Integrated Honesty* which is essential to renew and sustain romantic love to higher and higher and higher levels

Concept of romanticism became inverted by mystics and falsely associated with the irrationalists to promote Stagnation, thus preventing Romantic Love from flourishing and making long range Happiness and Lasting Love highly unlikely or impossible

Anti-Civilization Mysticism

Constant TRICKERY projected onto the civilization

Romantic love—

- Integrates mind and body of man and woman, including *emotional and intellectual values* between that man and woman
- Requires planned rational thought by *each* partner
- Involves emotional, intellectual and sexual involvement with another person
- Offers deepest of all happiness and greatest of all pleasures
- Is not automatic—love must be earned through *rational thought and planned effort*; maintained through constant disciplines, thought and control

Everything is the OPPOSITE of what they teach us

- **Total Integrated Honesty upholds that Love is not inexplicable or beyond understanding**
- **Everyone *must resist and fight* mysticism, otherwise it takes over your lives and leads to death**

True romantic love is peace, prosperity, joy, thinking progressively, and thinking for oneSelf

In its origin, 'romantic' meant *Freedom*. . .individuality and rational ideals based on Integrated Honesty—*not* irrational whims based on Mystical Illusions
