Disclosure for Students Enrolled in our courses: Our annual fees are based on the assumption that the student will be able to complete each accounting unit within a three-month period, followed by one month allocated for revision, mock exams, and the final examination. Consequently, it is anticipated that the student should be able to complete three units within one year. However, this timeline is subject to the student's individual ability, commitment, and willingness to undertake the necessary study and preparation. Highwoods Institute does not guarantee completion within this timeframe, and any delays or additional time required may result in extended study periods to cover the unit required. Please note that registration and examination with the relevant accounting board require additional costs, which are not included in the annual tuition fees and must be paid separately by the student.
