Peter Aiken
Associate Professor
Virginia Commonwealth University
Founding Director
Data Blueprint/Institute for Data
Research

Peter Aiken, PhD., is widely acclaimed as one of the top ten data management authorities worldwide. As a practicing data consultant, author and researcher, he has been actively performing in and studying data management for more than 30 years. He has held leadership positions and consulted with more than 50 organizations in 20 countries across numerous industries. Peter is also President of the International Data Management Association (DAMA). He is a highly sought-after keynote speaker and author of multiple publications, including his latest book, "The Case for the Chief Data Officer: Recasting the C-Suite to Leverage your Most Valuable Asset. "

Larrie D. Ferriero
Director of Research
Defense Acquisition University &
Award-Winning Author

Larrie Ferreiro, PhD., teaches Systems Engineering and Complex Systems Management at George Mason University (Fairfax, VA), Stevens Institute of Technology (Hoboken, NJ) and The Catholic University of America (Washington, DC). Previously he has been a liaison scientists with the Office of Naval Research in London, UK; a risk systems engineer with the US Coast Guard; and a naval architect with the US Navy, which included serving as an exchange naval architect in the French and British navies. He is the author of many publications including "Ships and Science: The Birth of Naval Architecture in the Scientific Revolution, 1600-1800."

ICSEMI'2014

INTERNATIONAL CONFERENCE ON SYSTEMS ENGINEERING MANAGEMENT & INNOVATION

GUEST SPEAKERS

PRESENTERS

GUEST SPEAKERS

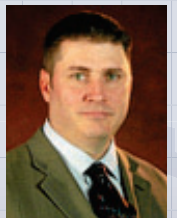

Joseph Bailey, PhD
**Research Associate Professor
& Quest Executive Director**
Robert H. Smith School of Business
University of Maryland

Bailey's research and teaching interests span issues in telecommunications, economics, and public policy with an emphasis on the economics of the internet. Bailey holds a PhD in Technology, Management, and Policy from the Massachusetts Institute of Technology.

Bradford W. Baker, PhD
Assistant Professor
United States Naval Academy &
Commander
United States Navy

CDR Bradford Baker has over 20 years of operational experience in the Naval Nuclear Propulsion Program. CDR Baker has managed all aspects of two nuclear plants including mechanical, electrical, reactor control, and auxiliary systems. He received his PhD in Mechanical Engineering from Naval Postgraduate School.

Jim Eberle
Chief Executive Officer
GSE Systems, Inc.

Jim Eberle had been the president of MXL Industries, Inc (2004-2010). He was also Vice President of Operations of General Physics Corporation (1990-2004).

Lawrence Asante is an assistant researcher with the Air Navigation Research Group of the Technical University of Madrid, Spain. He holds a Master's double-degree in Aerospace Engineering from University of Pisa, Italy, and Technical University of Madrid, Spain. His main research interests is automation and decision support system for air transport management.

Reda Ata is faculty member at the Department of Industrial Engineering, faculty of Engineering, Alexandria University, Alexandria, Egypt.

Almarri Khalid is PhD student at The British University in Dubai (BUID), United Arab Emirates. Khalid holds a Master's degree in Engineering Management and a BSc in Civil Engineering

Hemalatha Rallapalli, PhD., is the chair person BOS (autonomous) in the department of Electronics and Communication Engineering at University college of Engineering, Osmania University, India. She received her PhD in Wireless Communication(Cognitive Radio) from Jawaharlal Nehru Technological University, India.

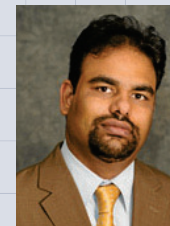

Dharmendra S. Sengar, PhD., is a Fulbright Senior Fellow (George Washington University, DC) & Shastri Post-Doc Fellow (Calgary, Canada) and Former, Vice Chancellor, University of Udaipur & Director, Indian Law Institute New. Sengar has vast experience of 31 years in teaching and research in the country and overseas at leading business School, universities and national research institutes.

Er. Gagandeep Singh is an associate professor at Anand College of Engineering & Management, Kapurthala, Punjab, India. His area of interest is network security.

Felena Hanson
Founder
Hera Hub
San Diego, CA

Felena Hanson is a long-time entrepreneur and marketing maven. She taught Marketing and Entrepreneurship at the Fashion Institute of Design & Merchandising and at California State University Dominguez Hills. Felena was recently awarded the "Women Business Owner of the Year Award" by the National Organization of Women Business Owners for her community efforts.

Vaibhav Sinha, PhD
Assistant Professor
Department of Mechanical and
Nuclear Engineering-Virginia
Commonwealth University

Vaibhav Sinha's recent research establishes a novel neutron/X-ray combined computed tomography system for advanced nondestructive evaluation research. Dr. Sinha has been honored by Council of Ionizing Radiation Measurements and Standards, American Society for Nondestructive Testing and Alpha Nu Sigma Nuclear Engineering Honor Society. He received his PhD in Nuclear Engineering from Missouri University of Science & Technology.
