

October

St. Joseph Parish School

A Note from Mrs. Makruski

What is OCSAA and Accreditation?

OCSAA stands for **Ohio Catholic Schools Accrediting Association**.

This organization is responsible for confirming that anyone who applies for accreditation with them is 100% in compliance with all Ohio guidelines for chartered non-public schools (which is the category under which we fall), as well as ensures that the school possesses all of the Catholic Identity elements needed to be deemed a Catholic school.

We are proud to announce that SJS has once again received FULL ACCREDITATION for the next 6 years!

An additional part of going through the accreditation process involves creating a school improvement plan that has strategic steps that take place over a 4 year period. There are two goals- one for academic performance and one for Catholic identity. The two goal areas we will be working on at SJS are:

Using metacognitive strategies across curricular areas
and

Pairing Catholic Social Justice teachings with Service Learning.

October Birthdays

10/2-Mrs. Makruski
