

# WARRIOR ROBOTICS SUMMER CAMPS 2026

**WHO:** Warrior Robotics will be offering robotics camps for students going into Kindergarten through 8<sup>th</sup> grade. These camps offer students the opportunity to work hands-on designing, programming, and implementing their thoughts and ideas into a creation of their own.

**WHAT:** We teach STEM Concepts (Science, Technology, Engineering, Math) plus programming, communications, and problem solving through the use of Lego robotics.

**WHERE:** Camps will be held at Wawasee Middle School located at 9850 N SR 13, Syracuse, IN 46567

**COST:** Camp Sessions are \$100 per week. Choose the week that you want below.

**Please Make Checks out to: Ryan Edgar**  
**Or through VENMO @Ryan-Edgar-14**  
**Send to: 12460 Placidview Lane**  
**Milford, IN 46542**

### QUESTIONS

**CALL 260-710-7214**  
**email: [redgar@wawasee.k12.in.us](mailto:redgar@wawasee.k12.in.us)**

**To Register Online Please Visit**  
**[www.warriorbattlebots.com](http://www.warriorbattlebots.com)**

By registering my child, I give permission for photos and videos to be taken of my child and posted on social media.

**June 22-26**

**June 22-26**

**June 22-26**

## **Remember it is the grade they are going into for the 2026 Fall.**

*"My kids have been in camp for the past 3 years and absolutely love it! They come home and tell me everything they are doing each day. I am so glad there is a camp that challenges my kids minds and inspires them. Thanks Warrior Battlebots." Parent of 2 campers*

### **WeDo Robotics (K-1st)**

Students will work with the WeDo Lego set to make different creations. They will do some basic programming that will allow their creations to come to life. Students will build communication skills, social skills, and mathematical skills as they work on the construction of different projects. Students may work on building animals, a soccer game, a ferris wheel, and a merry-go-round.

### **Simple Machines (2nd-3rd)**

Students will work on building and exploring simple machines, mechanisms, wind energy, and gearing. They will learn about pulleys, gear ratios, levers, pneumatics, and much, much more. Students will build a crane, dragster, robotic arm

### **LEGO BATTLE BOTS (4th-8th)**

#### **With New SUPER Sized Motors**

Students will work with a partner to create a robot that will battle against other robots in different competitions throughout the week. The first 2 days are spent designing weapons and armor for your robot. The last 3 days are for battle competitions. Students will then have a chance to compete in the ultimate Battle Bot Tournament of Champions.

**WON 1 PRIZE** 

**LEGO BATTLE BOT**
