# BACKED BY AWARD-WINNING RESEARCH

@rockyourclass

LIVE FRENCH, LEARN FRENCH...

- The **Interactive Comprehensive (IC) Roadmap** is an evidence-based framework that gives teachers the tools to actively engage students in experientially-authentic learning (A-OA) on the road to French proficiency.
- The IC readers, roadmarks and resources are **easy and intuitive** for teachers to use and **require no formal training**.

Research-based (award-winning) and classroom tested, the resources are designed to meet the growing needs of French teachers including **differentiated instruction, split-classes, student engagement, classroom routines, recruitment and retention**. Not only effective in classes of 20, 30 or 40 students, the resources have proven to work in a classroom of 500+ students.

# What is the IC ROADMAP?

The Interactive Comprehensive (IC) ROADMAP is a **visual, transparent, and guided journey** to French proficiency where **students live French and teachers facilitate**.

Each of the 60+ IC ROADMAP stops links to its own digital platform with I CAN statements, projects, **scaffolded authentic tasks (pre-A1 to B2)**, interactive songs, videos, readers, stories, **spontaneous skits**, and ready-to-use planning and assessment tools.

The IC ROADMAPS books are your **travel guides** on the IC ROADMAP, presenting all **scaffolded steps, tasks, strategies, and planning and assessment tools** in a **clear, sequential path**.

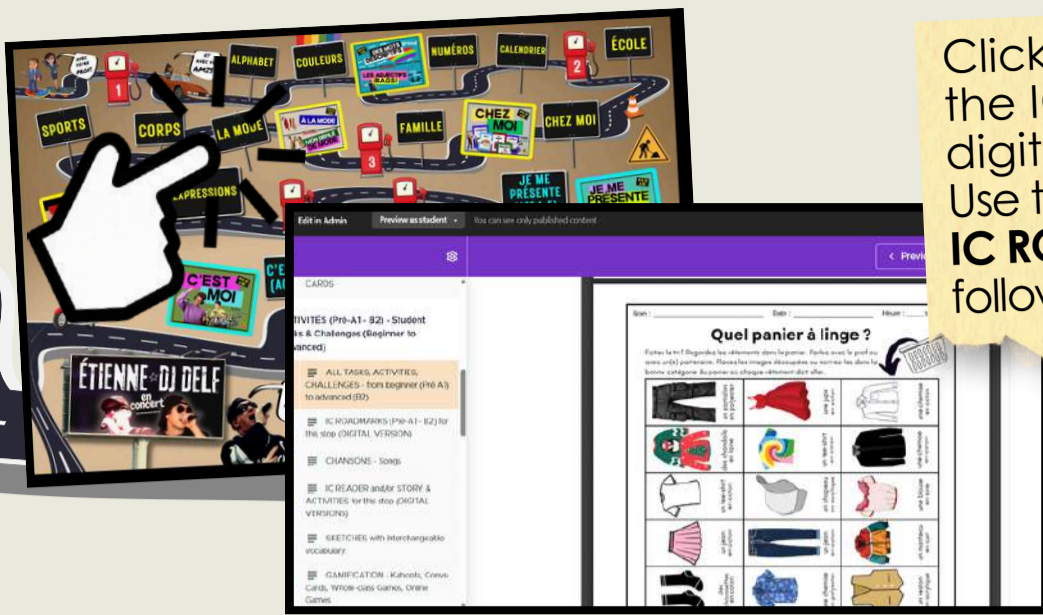

IC READERS and IC CONVO CARDS are **hands-on travel tools** that propel students forward toward French proficiency. Live French the **maternelle** way!

The IC ROADMAP is grounded in a **shared mindset** on a **common thread** of **evidence-based, award-winning** research. All levels, K-12. Based on the **5 sciences** of language learning, it integrates the principles of the **CEFR/DELF** and covers all provincial, state, and national curricula.

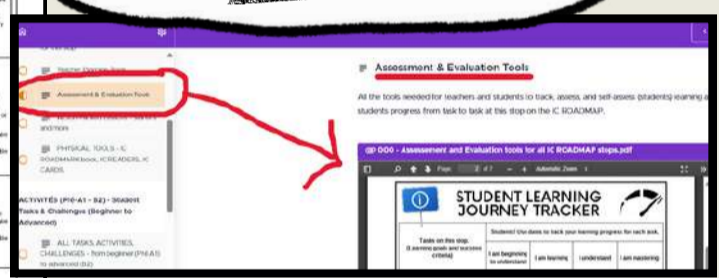

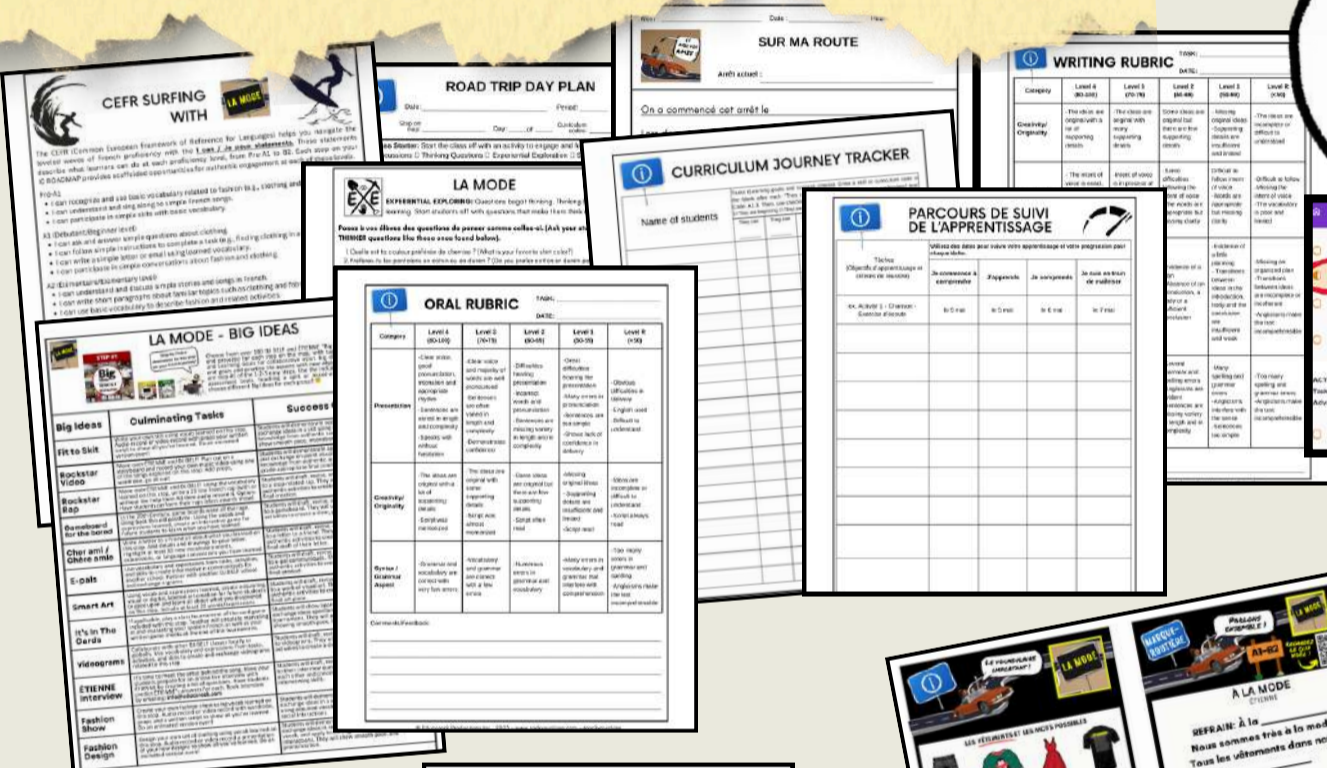

# Follow the 1-2-3 Easy Steps.

Click any of the **60+ hyperlinked stops** on the IC ROADMAP to access its forever digital platform (no subscriptions). Use the **built-in planning tools** and your **IC ROADMARK books** (Bleu, Rouge, Jaune) to follow the 1-2-3 Easy Steps for each stop.

**STEP 1:** Choose the **I CAN statements** and **curriculum goals** you want students to reach, then select one of the many pre-planned projects (**Big Ideas**) that will serve as the **destination end-task** for that stop.

Use your I CAN statements in the provided assessment tools to guide learning—and reuse them as **report card comments!**

**STEP 2:** Begin each stop with the **"Great 8 Strategies"** introduction. Students explore the life aspect, vocabulary, and expressions of the stop, while you **gain a clear, unbiased view** of where they are and where to go next.

**STEP 3:** Students begin the **authentic, action-oriented, leveled tasks** (Pre-A1 to B2), songs, spontaneous skits, stories, challenges, etc. you selected from the **QUOI FAIRE list of skill-builders** that prepare them for the final project chosen in Step 1.

Have fun with the IC readers, IC Readers' PLAYBOOK, and IC cards too!

Return to the same stop next year: pick a new end-task destination project, review the Great 8 Strategies, and move students into higher-level tasks as they **build on skills** from previous years.

@rockyourclass

Our Professional Development (PD) sessions are suitable for K-12 French teachers (Core, FL, Extended), and use the Interactive Comprehensive Roadmap to French Proficiency as a starting point.

The strategies which will be shared are evidence-based and backed by research across the 5 sciences: neuroscience, sociology, psychology, physiology and anthropology. Each session leaves teachers with happy minds and hands full of resources and tools that they can use the very next day in class.

Partnering with Rock Your Class will allow you to bring these strategies to educators over a 1-3 year plan, meaning we can cater to the needs of your district or school.

All sessions have been carefully curated to address, cover, and adhere to:

- The Common European Framework of Reference (CEFR)
- The Action-Oriented Approach
- The Live French... Learn French method
- ACTFL Standards (USA)
- Social Emotional Learning (SEL)
- School District, Provincial, State or National Curriculum Expectations
- School District improvement plans or mission statements
- Universal Design for Learning (UDL)
- Diversity, Equity and Inclusion
- Differentiated Instruction (DI)
- Understanding By Design (UBD, backwards-design, project oriented learning)
- Split-level classes
- Split-abilities classes
- Students with IEPs
