Junia's Circle Masterclass Strategy

Insights

Women in Ministry has only grown 2.3% since 1960. This huge disparity comes at the alarming fact that women make up 60-65% of churches worldwide.

Plan

Classes start March 1st. Registration is required.

Resourcing

We will be using the Bible along with historical facts that will be taught in a video format through a private YOUTUBE page that will only be available to those who register.

Measurement

The Masterclass will serve as a launching point for many women to receive the resources and encouragement they need in order to do what God is calling them to do.

The Mentorship program will go in depth with every woman and answer any deeper identity and life questions they may have. The Mentorship will allow them to strip themselves of fear and walk hand in hand with a community of other women supporting them. The main objective of the Mentorship is to provide resources along with coaching and guidance to build women for transformational living.
