INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the governmental activities and general fund of the Southwestern Travis County Groundwater Conservation District (District), as of and for the year ended 30 September 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the general fund of the District as of 30 September 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 5 and the budgetary comparison information on page 13 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

SOUTHWESTERN TRAVIS COUNTY GROUNDWATER CONSERVATION DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following is a narrative overview and analysis of the financial activities of the Southwestern Travis County Groundwater Conservation District (“the District”) for the year ended 30 September 2021. Please read it in conjunction with the District’s financial statements, which follow this section.

Financial Highlights

- The District incurred an increase in net position of \$74,641 for the year.
- Total assets amounted to \$84,672 at 30 September 2021, which represented an increase of \$59,295 over the \$25,377 balance at 30 September 2020.

Overview of the Financial Statements

This annual report consists of three parts—*management’s discussion and analysis* (this section), the *basic financial statements*, and *required supplementary information*. The *basic financial statements* include two kinds of statements that present different views of the District. The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District’s finances in a manner similar to a private sector business reporting on a full accrual basis of accounting.

The *Statement of Net Position* presents information on all of the District’s assets and liabilities, with the difference between the two reported as net position. Increases or decreases in net position may serve as a useful indicator of whether the financial position of the District has improved or deteriorated.

The *Statement of Activities* presents information showing how the District’s net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control and account for resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal or contractual requirements. The District has one fund, the General Fund.

Governmental Funds: The General Fund is used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental funds financial statements focus on current fiscal year cash inflows and outflows, as well as balances of resources available for spending at the end of the fiscal year. Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for the General Fund with similar information presented for governmental activities in the government-wide financial statements. Both the Governmental

SOUTHWESTERN TRAVIS COUNTY GROUNDWATER CONSERVATION DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

Funds balance sheet and the Governmental Funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between Governmental Fund and government-wide financial statements.

Government-Wide Financial Analysis

Net position may serve as a useful indicator of the District's financial position. The District's net position was \$75,785 as of 30 September 2021. \$74,747 of the District's net position is unrestricted and available to finance day-to-day operations without constraints.

Financial Analysis of the Governmental Fund

The focus of the District's Governmental Fund is to provide information on near-term inflows and outflows and on resource balances available for spending. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance serves as a useful measure of the District's net resources available for spending at fiscal year-end.

SOUTHWESTERN TRAVIS COUNTY GROUNDWATER CONSERVATION DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

During the fiscal year ending 30 September 2021, the District's only Governmental Fund was the General Fund, and it reported ending fund balance of \$74,747 increase of \$74,641 over the year-ended 30 September 2020. The District's ending unassigned fund balance of \$74,747 was unencumbered and available for spending at the District's discretion.

General Fund Budgetary Highlights

General Fund revenues were \$294,012, or 36%, under budget, primarily due to \$173,398 less than anticipated in fee for service revenues, offset by a increase of \$5,740 in funding from Travis County. Expenses for the General Fund were \$242,615 less than budget, a variance of (53%). The budget variance resulted primarily from most expenses being less than anticipated; payroll and related (\$43,865), legal services and professional (\$74,658), office and administrative (\$56,076), and Groundwater Research Studies/Projects (\$52,575). Additionally, budgeted expenses for vehicle expenses and insurance, totaling \$15,441 were not utilized.

Economic Factors, Future Years' Budgets and Tax Rates

The District factors considered in establishing a budget are the funding needs of the District operations and programs necessary to meet the objectives of the District as stated in the District's Enabling Legislation and its By-Laws. Amounts available for appropriation in the General Fund budget are \$219,371; expenditures are estimated to be \$219,371. If these estimates are realized, the District's budgetary General fund balance is expected to be the same by the close of 2022.

Request for Information

This financial report is designed to provide a general overview of the finances of the District for all parties with an interest. Questions concerning any of the information provided in this report or requests for additional financial information should contact the District's business office at Southwestern Travis County Groundwater Conservation District, Austin, Texas.

SOUTHWESTERN TRAVIS COUNTY GROUNDWATER CONSERVATION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: ORGANIZATION

The Southwestern Travis County Groundwater Conservation District (the District) was created by House Bill 4345, which became effective on 1 September 2017. Voters approved the creation of the District in November 2019, giving it the authority to manage and protect groundwater resources in its territory.

The District is led by a 7-member Board of Directors, who are elected by residents of the City of Bee Cave, the City of Lakeway, Village of the Hills, and the City of West Lake Hills, as well as by residents in the District's territory beyond the municipal boundaries of those listed municipalities.

The District's operation and activities are funded by fees. The District does not have the authority to impose property taxes. The District has no employees.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the District conform to U.S. generally accepted accounting principles applicable to governments promulgated by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA). The following is a summary of the significant accounting policies.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The District is considered a special purpose government under GASB Statement No. 34. This allows the District to present the required fund and government-wide statements in a single schedule. The requirement for fund financial statements to be prepared on the modified accrual basis of accounting is met with the "General Fund" column. An adjustment column includes those entries needed to convert to the full accrual basis government-wide statements. The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the District's activities. The Statement of Activities demonstrates how other people or entities that participate in services the District operates have shared in the payment of the direct costs.

MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

SOUTHWESTERN TRAVIS COUNTY GROUNDWATER CONSERVATION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers all revenues available if they are collectible within 60 days after year-end. Expenditures are recognized in the accounting period in which the liability is incurred. Interest and tax revenues associated with the current fiscal year are considered susceptible to accrual and have been recognized as revenues in the current fiscal year. All other revenue is considered measurable and available only when cash is received by the District.

ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

NET POSITION

Net position represents the difference between assets, deferred outflows, liabilities and deferred inflows. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first and then unrestricted resources as they are needed.

FUND BALANCES

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District can establish limitations of the use of resources through either a commitment or an assignment. When both unassigned and committed or assigned funds are available for expenditure, committed or assigned funds are used first.

Nonspendable fund balances are amounts that cannot be spent because they are not in a spendable form or legally or contractually required to be maintained in tact. Committed fund balances include amounts that can only be used for specific purposes determined by a formal action of the Board or adoption of an ordinance.

SOUTHWESTERN TRAVIS COUNTY GROUNDWATER CONSERVATION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Limitations imposed by commitments remain in place until formal Board action is taken to remove the limitation. Amounts in the assigned fund balances are intended to be used by the District for specific purposes but do not meet the criteria to be committed. Assignments are generally temporary and do not require Board action to be taken to remove the assignment.

CAPITAL ASSETS

Capital assets, which include furniture and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Furniture and equipment are depreciated using the straight line method over 5 years.

SUBSEQUENT EVENTS

The District has evaluated subsequent events as of the date of the Independent Auditor's Report. The District is not aware of any subsequent events that materially impact the financial statements.

The Board of Directors establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the Board of Directors through adoption or amendment of the budget as intended for specific purpose (such as the purchase of fixed assets, construction, debt service, or other purposes).

NOTE 3: DEPOSITS AND INVESTMENTS

At 30 September 2021 the carrying amount of the District's cash deposits was \$83,634 and the bank balance was \$93,390. The District did not have any deposits in excess of FDIC insurance.

SOUTHWESTERN TRAVIS COUNTY GROUNDWATER CONSERVATION DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

NOTE 4: BUDGET

The District adopts an annual budget for each fiscal year and amends the budget as needed during the year. There were no current year amendments. The District does not use an encumbrance system and appropriations lapse at the end of each fiscal year. Revenues and expenses were less than anticipated.

NOTE 5: RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Total fund balance-government funds	\$74,747
Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$1,038 and the accumulated depreciation was \$0. The effect of including the beginning balances for capital assets (net of depreciation) in the governmental activities is to increase net position.	<u>1,038</u>
Net position of governmental activities	<u>\$75,785</u>

NOTE 6: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. The District contracts with the Texas Municipal League (TML) to provide insurance coverage for identified risks. TML is a multi-government group that provides for a combination of modified self-insurance and stop-loss coverage. Contributions are set annually by TML. Liability by the District is generally limited to the contributed amounts.

NOTE 7: PRIOR PERIOD ADJUSTMENT

As of 30 September 2020, Groundwater research studies/projects expenses were understated by \$1,756 and net position was overstated by the same amount on the statement of activities. A prior period adjustment has been recorded to correct beginning net position. The effect of this adjustment decreases the change in net position for the year ended 30 September 2020 by \$1,756.

NOTE 8: TRAVIS COUNTY INTERLOCAL AGREEMENT

The District entered into a cost reimbursement interlocal agreement with Travis County. The County will provide funding not to exceed \$185,215 of which \$50,000 is for ground water consulting.
