

Vortex Crystalline Water

VC-RO (VC - Reverse Osmosis) Info & Pricing

Committed to the health & well being of our friends, family, community, and greater outreaches of the world.

We put quality and transparency above everything to deliver water in its perfect form.

www.Vortex-CW.com

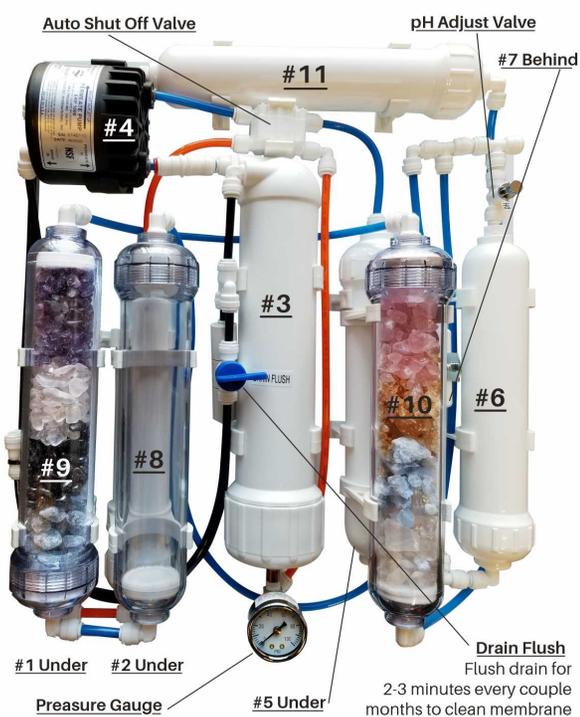

Vortex Crystalline Water presents a 11-step process to achieve structured water of the highest purity.

Utilizing Pre-Filtration, Reverse Osmosis, Deionization (ion-exchange), Structuring, & Post-Filtration, there is not a contaminant left unturned.

VC-Water is free of all contaminants including acids, pharmaceuticals, heavy metals, disinfection by-products, chemicals, fluoride, and many other compounds.

It's then purposefully restructured and stripped of negative memory. This is achieved through vortexing, magnetic energy and select quality super crystals for dynamic healing and energetic structuring.

VORTEX CRYSTALLINE WATER IS DESIGNED TO ENHANCE HEALTH AT THE CELLULAR LEVEL

VORTEX CRYSTALLINE REVERSE OSMOSIS (RO) SYSTEM

11 STAGES OF FILTRATION

1. Sediment pre-filter
2. KDF / Enhanced Carbon pre-filter
3. 100 Gallon per Day RO Membrane
4. Permeate Pump
5. Cation Resin
6. Magnesium Oxide
7. Magnetic Field
8. Vortex Chamber
9. First Crystal Chamber.
 - Celestite
 - Hematite
 - Black Tourmaline
 - Brazilian Tumbled Quartz
 - Arkansas Quartz Tip
 - Uruguayan Amethyst Tips
 - Brazilian Amethyst Tips
 - Brazilian Amethyst Tumbled
 - Madagascar Amethyst Tips
10. Second Crystal Chamber.
 - Madagascar Rose Quartz
 - Brazilian Citrine
 - Mexican Orange Calcite
 - Madagascar Blue Calcite
 - Girasol (programmed with piano frequencies)
 - Brazilian Tumbled (programmed with Schumann resonance)
11. Enhanced Carbon Filter for final polish and taste

VC-WATER UNDER SINK - HOME SYSTEM 5 MICRON FILTER

Removes sediment, dirt, sand, dust, rust, and particulates measuring over 5 microns in size.

KDF+ENHANCED CARBON FILTER

Removes chlorine, heavy metals, turbidity, chloramine (chlorine + ammonia), organic contaminants, pesticides, chemicals, and bacteria.

REVERSE OSMOSIS (RO) MEMBRANE

Removes remaining particulate contaminants as small as .0001 microns in size. (Bacteria is about 0.5 microns, and viruses are around 0.05 microns.)

DEIONIZATION

Removes remaining trace contaminants such as acids, pharmaceuticals, disinfection by-products, and any remaining dissolved acids.

REMINERALIZATION

We take remineralization very seriously. We use only the highest quality magnesium bicarbonate in precise amounts to achieve a perfect pH of 8.4 (pH regulator located on system).

MAGNETIC FIELD

We use the highest quality rare earth magnets to emulate water flowing over earth's naturally charged surfaces. This is just the beginning of our restructuring trifecta!

VORTEX CHAMBER

We vortex the water to spin out negative memory and spin in positive cosmic energy.

SUPER CRYSTALS

Select quality crystals finalize the clearing of the negative memory and restructure the water with natural and healing properties.

ENHANCED COCONUT CARBON FILTER

Provides enhanced final polish for taste.

PROPERTIES OF THE CRYSTALS

The present crystals have the following metaphysical attributes:

Celestite theoretically neutralizes harmful effects of deuterium on water.

Hematite removes all memory from water.

Black Tourmaline repels negative energy.

Brazilian Tumbled Quartz scientifically carries a piezoelectric charge that theoretically strengthens the third eye.

Arkansas Quartz Tip is approximately 280 million years old and contains evolutionary positive energy.

Mixed Amethyst Points & Tips collectively contain prominent healing energies.

Madagascar Rose Quartz contains healing qualities for the heart and emotional bodies.

Brazilian Citrine theoretically strengthens spirit, mind, & body.

Mexican Orange Calcite repels negative energy.

Madagascar Blue Calcite theoretical anti-pathogenic effect and strengthens central chakras.

The **Girasol** has been programmed with beneficial piano frequencies.

Brazilian Quartz has been programmed with the Schumann earth resonance, theoretically protect against EMFs.

FORMS OF FILTRATION → WHAT THEY REMOVE ↓	CARBON BLOCK FILTERS	STANDARD REVERSE OSMOSIS	IONIZER	VC WATER UNDER SINK HOME SYSTEM
PARTICULATES EX: DIRT, SAND, DUST, RUST, HEAVY METALS	PARTIAL	✓	✗	✓
REMAINING TDS (TOTAL DISSOLVED SOLIDS)	✗	99.99%	✗	✓
ACIDS	✗	✗	✓	✓
LIQUID & GASEOUS CONTAMINANTS PHARMA-CEUTICALS DISINFECTION BY-PRODUCTS	✗	✗	PARTIAL	✓
NEGATIVE MEMORY	✗	✗	✗	✓
WHAT THEY ADD BACK IN...	NOTHING	NOTHING	NOTHING	RESTRUCTURED WATER USING VORTEXING, MAGNETS, & CRYSTALS

Standard Retail Pricing

VC-RO.....\$5,000

(includes: Under Counter Machine, Storage Tank, Installation kit; Faucet, Cold Water Angel Stop, Drain Saddle, Necessary Tubing, Instructions, Water Testing Equipment)

Local (Souther California) Installation..... \$400

If the system is being shipped out of state, installation can be completed by any licensed plumber. Can also be completed by any competent handyman or DIY-er. The system comes with thorough installation instructions & our team is only ever a phone call or FaceTime away from helping whomever complete the job!

** Dont foreget to mention who referred you! A discount is more than likely waiting for you!*
