-Details of Services-

Our Dog Groomers

We are passionate about dogs, and fully qualified in dog grooming, we work with your dog in a stress-free environment, with grooming tailored to the dogs needs without compromise & to a high standard.

Initial Health Check Assessment: Required on first visit, to assess the health of the dog, specific needs and dog reaction. Upon assessment the cost of a groom will be given to the customer. This is dependant on coat condition and the confidence level of the dog. We groom at the pace of your dog and if your dog is extremely nervous then extra time may be needed and this is reflected in the price.

Full Grooms include: Bathing with natural shampoo & conditioner, brushing, blow dry, full body haircut, nail clipping & ear cleaning.

Puppy Package: Bathing with natural shampoo & conditioner, brushing, blow dry, face & sanitary trim, nail clipping, ear cleaning.

Bath & Dry includes: Mud removal bath with shampoo, blow dry & brush.

Desensitizer Programme: After an initial assessment, our groomers will recommend how many sessions may be required to build confidence levels in your dog to be able to groom. These sessions will be 15-30 minutes and can help to calm and relax your dog in the grooming environment. We proceed at the pace of your dog, so if the dog is extremely nervous then extra sessions may be necessary.
