

# 50/50 Flexible and Free

Time and Money  
Two things we all need more of...  
To live our American Dream to its fullest.

For most Americans, the American Dream has changed very little over time. We dream of a place to call our own and the means to enjoy the good things in life.

For many, homeownership and business ownership are the keys to success.

Walking the conventional path to success means going to the bank and taking out loans. Then over the course of decades, with a lot of hard work and payments, you'd be a success.

**THAT'S...  
A LOT OF TIME.  
AND A LOT OF MONEY.**

What if there was a better path where you could succeed...  
**IN HALF THE TIME WITH HALF THE MONEY  
AND NO EXTRA PAYMENTS?**

The US Tax Code, over the years, has had changes and updates. But a little over 50 years ago, a little known path to success emerged from these tax code changes. This new path uses the tax code, optimizes it, and makes it work for you. Just like it did for Jim and Carol.

Jim and Carol were well on their way building their lives using the conventional path. Their entrepreneurial spirit led them to start their own small business. With a mortgage and business loan, they were making payments on \$800,000. And they would be making those \$77,000 a year payments for the next 20 years.

But they didn't. They found the

path that changed everything.

First, using the tax code, they set up the means to cut their time writing checks to the bank in half. For Jim and Carol, they went from 20 years to just 10 years.

But it gets better, shortening the duration to 10 years, cut their payments — you guessed it — in half.

What did Jim and Carol do with the time and money they saved? They're scaling up their business much sooner than they ever thought possible. They're living their American Dream to the fullest.

In half the time with half the money and no extra payments to your lender. Why not explore this new path for success for yourself?
