

FIND YOUR SIGHT LINE

Whether it's standing knee deep casting a fly into a riffle. Glassing a meadow. Hiking a ridge line. Or taking a mountain bike where you never thought you'd go. One belief lives in all of us - That spending time outside feels a lot better than being inside. That nature and the elements are what bind us together, so we can thrive.

Sight Line Provisions was born out of the belief that some moments were meant to last longer than others. And that people ought to be able to wear something that speaks to what they love doing. Something that signals they're part of a unique community, and ultimately become a part of themselves.

Sight Line Provisions creates designs unlike any other. Blending stainless, leather and lost cast into pieces that can be worn and handed down for generations to come. We're more than a little attached to what we do. Not to mention connected to the people who wear what we make.

SLP stands by the quality of their bracelets and created the 'rebuilt program' to let you keep the original badge while replacing the leather bracelet base.

For a reasonable fee you are able to **reuse your existing stainless or bronze SLP Badge from your worn out or old SLP bracelet** and have SLP Rebuild it with a new bracelet.
