St. Philip's Church records 1867-1994 [bulk 1957-1978]

The St. Philip's Church records (1867-1994, bulk dates: 1957-1978) document the administrative, spiritual, and social service activities of the Harlem-based Episcopal church. The majority of the collection reflects the career of Pastor Moran Weston, who served as rector of St. Philip's Church from 1957 to 1982. Weston's board activity, sermons, writings, and professional endeavors are strongly represented, as are the church's housing properties and its Community Service Council.
